## Who We Are

Located in the heart of Minnesota, The Outdoor GreatRoom Company™ (OGC) manufactures unique, upscale products with design appeal for outdoor living spaces. Products include gas fire pit tables, Crystal Fire® Plus burners and burner inserts, outdoor kitchen islands, outdoor gas fireplaces, outdoor patio furniture, accessories, and custom products for residential and commercial applications.

## What We Do

The team behind The Outdoor GreatRoom Company was the first to enter into the gas fire pit category, positioning OGC as the experts on outdoor fire. We are U.S. manufacturers and all of our Crystal Fire® Plus burners and gas fire pit tables are UL and ULC listed for safety.

## Our Promise

Let The Outdoor GreatRoom Company help to define your outdoor experience. We set the trends outside as your one-stop-shop for safe products, reliable and friendly service, and innovative technology. From concept to design to delivery, we will ensure your style doesn't stop at the door. Distinctive products for a distinctive lifestyle. Bring home outside.

## Our Mission

To bring family and friends together by redefining the home living experience through innovative products and people.

## History

In 1975, Dan and Ron Shimek had an inspiration for indoor gas fireplaces that changed an industry and became the foundation of Heat-N-Glo®. Brothers Steve and Gerry joined them and the rest (including over 50 patents) is history. But the Shimeks were never ones to dwell on the past. That inspiration led Dan to launch the first company of its kind in 2003: The Outdoor GreatRoom Company — a company dedicated to an exciting new concept “the outdoor greatroom.”

## Why OGC?

OGC is focused on bringing the best and safest product to the market. That's why we have a team with over 20 years of experience manufacturing products in the outdoor living category, and we continue to introduce the best and most innovative products year after year.

### Crystal Fire® Plus Burner Technology

The safest and most reliable in the industry.

### UL & ULC Listed

Tested for safety and quality.

### Design-Forward Products

Handcrafted in Minnesota from durable, outdoor-rated materials.

### We're Like Family

We provide exceptional customer service and reliability.

## Photography Program

- Become a photographer! The Outdoor GreatRoom Company is always on the lookout for quality images that represents OGC's products and the lifestyle it has to offer.
- Have an amazing outdoor scene featuring OGC products you'd like to show off? Send us your pictures!
- Most high end smart phones and digital cameras will work.
- If your photos are approved, you may receive up to \$200 in credit for any future purchases.
- Send pictures with name, company name, phone number & sales order # to [marketing@outdoorrooms.com](mailto:marketing@outdoorrooms.com)

### Images Requirements:

- Must be high resolution
- Larger than 2000 x 2000 pixels
- Must be in color
- Must include flame

Light up the night with a cozy, stylish gas fire pit.  
Every table includes our patent-pending Crystal Fire® Plus burner technology  
for the best and safest experience. All fire tables include clear tempered glass gems.

We supply the structure, and you finish your masterpiece on-site  
to match your landscaping or exterior design.

| READY-TO-FINISH

# Ready-to-Finish Fire Pit Kits

Be the visionary for your very own fire pit design.  
Ready-to-finish fire pit kits are made from Fiberock® backerboard and G90 steel framing.

Finished Linear Kit

- Made of G90 marine-grade galvanized steel framing and Fiberock® backerboard
  - Choose between manual ignition (VCSV) or direct spark ignition (DSI)
  - Includes aluminum top, burner insert, two ventilation plates, and standard control panel
  - Control panel will either have turn dial or switch depending on ignition type
  - Other DSI controls, timers, e-stops, and fire media sold separately
  - Recommended for hard piped natural gas or liquid propane installation
  - **Custom sizing available** — contact OGC for more information
  - Most do not fit 20 lb. liquid propane tank in base
  - Made in USA with US and imported parts
- See page 36 for custom capabilities.

Square kit with included components.

Complete your outdoor fire feature with its own signature look.  
Our accessories provide a safe and durable complement to your fire.  
Easily customize your table with a glass wind guard, glass media, cover, and more.

| ACCESSORIES

# Accessories

## Fire Media

Tempered fire glass lights up the fire pit table with an ember-like glow. Complete your gas fire pit table or outdoor fireplace with beautiful tempered glass gems or lava rock. Choose from many shapes, sizes, and colors to create a custom look — you can even mix and match!

- Find your favorite for a unique, custom look
- Seven glass media gems to choose from
- Black lava rock, tumbled lava rock (2 different sizes), and ceramic log set favor a more natural look
- Realistic-looking ceramic log set includes six wood pieces
- Clear tempered glass gems (CFG-D) included with all fire pit tables

## Glass Wind Guards

Glass wind guards look beautiful with the reflection of the dancing flames. Glass guards are available to fit any standard Crystal Fire® Plus burner.

- Reduces wind effect and provides a safety barrier for children and animals
- Tempered glass panels
- Stainless steel hardware — round glass wind guards feature a stainless steel rod for added durability
- Easy to set up and clean

See page 66 for custom glass wind guard form.

## Folding Wind Guards

The convenience of a glass wind guard and burner cover in one. Place the panels of glass up to protect the flame from the wind, and place them down to cover your burner when not in use. Available in two sizes: 12" x 24" (FWG-1224) and 12" x 42" (FWG-1242). Patent pending.

- Sits on top of burner trim
- Clear tempered glass
- Stainless steel hardware
- Easy to set up and clean

See pages 58–61 for accessory glossary.

1224-GREY-GLASS-COVER

20-R-GGC

Matching Supercast™ Cover

CFT-GLASS

LAZY SUSAN RING

## Burner Covers

Turn your beautiful fire pit into a functional table by covering the burner with one of our stylish burner covers. Covers also add an extra layer of protection from rain and debris when not in use.

- Grey glass burner covers are included with most fire pit tables; available for all burner sizes
- Select Supercast™ tables come with matching Supercast burner covers
- Add a stainless steel burner cover to CV-54, CV-72, or other select linear models
- Add a lazy susan ring or black glass cover to any of our 20" round burner covers

See page 66 for custom burner cover form.

CVR5132

## Protective Covers

Protect your investment with protective covers from OGC! Protective covers are great for storing items long term or for everyday use.

- Available for most fire pit tables
- Tan polyester fabric stays cool to the touch
- Tear-resistant, rip-stop laminating
- Drawstring cord at bottom to secure to fire pit
- Polyester velvet interior protects finished material
- One-way breathability: exterior is water-resistant while being one-way breathable to let any interior moisture out

CV-54 with optional SS54T

## Stainless Steel Trim

Compliment the unique look of the 54" and 72" Cove Linear tables (CV-54, CV-72) with this modern stainless steel top.

- Available in two sizes: 54" (SS54T) and 72" (SS72T)
- #304 commercial-grade stainless steel construction
- Adds layer of protection to concrete surface
- Easy to clean

BRON52-K with optional BRON52-CG-TC

## Bronson Concrete Tops

Complete your Bronson round gas fire pit kit with an elegant, contemporary concrete top.

- Choose between two colors: Limestone Tan (BRON52-LT-TC) or Charcoal Grey (BRON52-CG-TC)
- Four pieces included with each SKU

### Color options available

Limestone Tan (BRON52-LT-TC)

Charcoal Grey (BRON52-CG-TC)

Comfortable furniture makes any outdoor room complete. Whether you have a modern or traditional backyard style, we've got just the right chair for you. Choose between a variety of designs and sizes to find the perfect addition to your outdoor space.

## Custom Fire

Ignite your outdoor living area with a custom fire feature.  
We'll work with you on making your dream design come to life.  
Perfect for residential, commercial, or multi-family properties.

### Our Custom Process

With our Minnesota-based customer service, design, engineering, and manufacturing abilities, we can help you design, build, and deliver the custom project you've been dreaming of. The process is simple and includes five steps to ensure we do everything correctly.

- 1 Start with something as basic as a sketch, desired dimensions, or material change to one of the many items in our catalog.
- 2 Use our custom request form and fill it out as completely as possible. See pages 63-66 for custom request forms.
- 3 The Outdoor GreatRoom Company will provide an estimate for the project.
- 4 A custom rendering will be created (examples above) and submitted to you for approval.
- 5 Once everything is approved, a signed drawing and corresponding purchase order is submitted to OGC to start the creation process.

- Customize many of our standard fire pit tables or create your own unique gas fire pit or outdoor fireplace
  - Common materials used are Supercast™ concrete, stucco, metal, tile, and stacked stone (see page 35 for available finishes.)
  - Size and shape to fit your design
  - Specify desired accessories, fuel type, and other notes in the custom form
  - Other upgrades may include LED underlighting, custom glass guards, custom burner covers, and more
  - UL and ULC listed Crystal Fire® Plus burners
  - Made in USA with US and imported parts
- See pages 63 and 65 for custom request forms.

# Custom Outdoor Kitchens

Turn your outdoor dream into a practical reality.  
Create your own custom outdoor kitchen and compliment it with your desired outdoor appliances.  
Choose between a variety of outdoor-rated materials or finish it on your own to match your exterior design.

- Custom kitchens utilize G90 marine grade galvanized steel framing with Fiberock® backerboard
- Common materials used are Supercast™ concrete, stucco, metal, tile, and stacked stone (see page 35 for available finishes)
- Customize your design to include a backsplash, elevated bar, Crystal Fire® Plus gas burner, storage, your favorite grills or other appliances, and more!
- Made in USA with US and imported parts

See page 64 for custom request form.

Crystal Fire® Plus burners are included with every gas fire pit table sold by The Outdoor GreatRoom Company. Purchase separately for custom-built fire pits, fireplaces, or other outdoor installations.

**Crystal Fire** <sup>PLUS</sup>   
**| BURNERS & KITS**

# Crystal Fire® Plus Burners

**Overmount Style**  
(burner shown: CFP1242-K with optional GLASS GUARD-1242)

**Undermount Style**  
(burner shown: BP1264-A)

- Burners and burner kits include a variable control safety valve (VCSV), control panel, and clear tempered fire glass gems
- Higher BTU capacity for a brighter, taller, fuller, more yellow flame
- Safety ignition and safety shutdown operations
- “Positive connect” user experience with minimal gas connections for quick installation time
- #304 commercial-grade stainless steel construction
- Safe water drain system through perimeter of the pan
- Comes setup for connection to liquid propane but can be field-converted to natural gas
- Burners and kits above 64” in length include two valves and two control panels
- Installation should be completed by a certified gas technician
- UL and ULC listed to ANSI Z.21.97-2017/CSA 2.41-2017 standard

See page 49 for contract and commercial burner options.

## Controls

VCSV-CP

VCSV-DIY-CP

- If flame is not sensed for any reason, the flow of gas to the burner will safely shut down
- Adjustable flame operation
- Black powder-coated panel with black plastic knob and sparker
- For use with liquid propane or natural gas
- Optional gas key available
- Variable Control Safety Valve System (VCSV-CP) included with every standard table Crystal Fire® Plus burner and gas fire pit table (Dimensions: 6.375" H x 3.5" W)
- DIY control panel for use on custom or hardscape block applications (Dimensions: 9.5" L x 3" W x 4" H)
- Order DIY control panel for use with manual ignition (VCSV-DIY-CP) or direct spark ignition (DSI-DIY-CP)

## Ventilation

VENT BLOCK BLACK

21005

- Crystal Fire® Plus burners require proper ventilation for any DIY or field-installed application
- Black ventilation block (VENT BLOCK BLACK) is made of black powder-coated stainless steel (Dimensions: 8.5" L x 4" W x 4" H)
- Ventilation plate (21005) is made of brushed stainless steel (Dimensions: 12" L x 3" W" x <1" H)

## Do-it-Yourself Kits

Take the guesswork out of your do-it-yourself project with these convenient burner kits. Each kit includes everything you need for building the perfect fire pit. Just add brick pavers or other construction materials to make it your own!

\*Booster orifice available to increase BTU capacity if desired and approved for finishing structure. Glass wind guard required if booster orifice used with any OGC gas fire pit table.

\*\*Burner plate kits include corresponding burner insert and burner plate. Burner insert can be purchased on its own if desired. Contact OGC for burner insert specifications.

## Factors to consider when selecting your burner:

- 1 **Installation Site:** Is your burner going into an already built surround or will you need a fire table or ready-to-finish base for your burner?
- 2 **Burner Mount:** Whether you are looking for a top overmount or bottom undermount application, we have the burner for you. Choose from drop in burners or burner insert and plate kits.
- 3 **Installation Opening:** What size and shape is your installation opening? Choose from our stocked burners or burner insert and plate kits to fit your space. If a stocked option is not available, ask about our custom options.
- 4 **Operation and Controls:** Do you want controls available for public use or in a more secure, controlled setting? Choose controls, such as a timer, Bluetooth® application, or on/off switch for your application.

## Timers

4HRTC

CF-DSI-60MT

- Available in 1-hour and 4-hour options
- Timer replaces controls for direct spark ignition system
- Timer is built into control panel
- Black powder-coated panel with white timer dial
- Dimensions: 6.375" L x 3.5" W

## Emergency Stop Button

CFP-ESO-CP

- Immediately shuts off flame when pressed
- Red button included with direct spark ignition system
- Black powder-coated panel with red plastic emergency stop button
- Dimensions: 4.5" L x 2.625" W

## On/Off Switch with Emergency Stop Button

WSEP-CP

- On/Off wall switch with emergency stop button
- Replaces controls for direct spark ignition system
- For applications away from the appliance
- Black powder-coated panel with black switch
- Dimensions: 4.5" L x 4.525" W

## Timer with Emergency Stop Button

4HRTES-CP

- Four-hour timer with emergency stop button
- Replaces controls for direct spark ignition system
- For applications away from the appliance
- Black powder-coated panel with white timer dial
- Dimensions: 4.5" L x 4.625" W

## Bluetooth® Smart App

- Ignite your fire pit or fireplace from your smart device
- Convenient timer automatically turns off the fire
- User-friendly application offers easy installation and syncing process
- Syncs over Bluetooth®
- Available for use with all direct spark ignition systems
- Compatible with iOS™ and Android™
- For residential use only

DSI-SA

# Black Wave Gas Burner

Modern meets innovation with this unique burner design!  
The Wave can be installed in custom-built gas fire pits, fireplaces, or other outdoor projects.  
The three-tube burner is made from high-quality, black powder-coated stainless steel.

WV-56-LP  
WV-56-NG

- Black powder-coated #304 stainless steel
- 54" three-tube burner with black onyx tempered fire glass gems - 150,000 BTUs (LP/NG)
- Includes burner, glass wind guard, ignition system, and glass gems
- Choose between liquid propane (WV-56-LP) or natural gas (WV-56-NG)
- Comes standard with direct spark ignition (DSI)
- UL and ULC listed
- Made in USA with US and imported parts

# Standard Materials

## Tempered Glass

Tempered glass is used for all glass wind guards, burner covers, and fire glass. It has been heat-treated and is safe to use with our Crystal Fire® Plus burners. Untempered glass or glass that has not been heat-treated can explode when it reaches high temperatures and is not safe to use with gas fire pit tables.

## Stucco

Stucco is used on many of our outdoor products and comes in many colors and finishes. Stucco is a low-maintenance and durable outdoor finish.

## Supercast™ Concrete

Supercast is a proprietary blend of fiberglass and concrete to provide durability and strength. It is stronger and weighs less than traditional concrete. We have a variety of standard colors and finish looks. Custom options available.

## Everblend™ Concrete

Everblend is a process and material developed in-house and manufactured exclusively at The Outdoor GreatRoom Company. It is a weatherproof, concrete finish over a fiber cement and steel structure. The durability can be compared to any glass fiber reinforced concrete but is lightweight for easier handling and installation.

## Wood

Appearance-grade, high-quality wood is used to create your dream design. Multiple stain options are available. Use wood to accent your look or complete your entire design.

## Stainless Steel

Crystal Fire® Plus burners, outdoor kitchen accessories, and finish trims are made from #304 stainless steel. #304 stainless steel is a high quality, commercial-grade metal with superior corrosion and rust resistance.

## Steel Framing

Steel framing is used to build many of our gas fire pit tables, outdoor fireplaces, and custom outdoor kitchens. The framing is G90 galvanized steel which provides strong corrosion and rust resistance in most applications.

## Fiberock®

Fiberock backerboard is water, mold, and mildew resistant, making it durable for our fire pit tables, outdoor fireplaces and custom outdoor kitchens. This eco-friendly board is made from 97% recycled materials and is ready for stone, tile or other finishing materials because it is solvent, adhesive and resin free.

## Rip-Stop Polyester

Polyester is used for all of the tan protective covers. The fabric provides one-way breathability: keeping exterior water away yet allowing interior moisture out. The covers feature tear-resistant, rip-stop laminating to further reinforce its strength and protection for the outdoors.

# Frequently Asked Questions

## Crystal Fire® Plus Burners and Gas Fire Pit Tables

### Are these burners and fire pits UL listed? What does that mean?

Yes, all of our burners are UL and ULC tested and listed. This means they have passed numerous tests to ensure safe operation meet current ANSI standards. They have undergone extensive wind, rain, and clearance tests.

### Can I roast marshmallows over my fire table or burner?

Yes you can; however, this appliance is UL listed as a decorative gas appliance, not a cooking appliance. Make sure that combustible items do not end up in the burner, as it will clog the burner ports and prevent proper operation.

### Are there different Crystal Fire® Plus burner models?

We have 22+ different Crystal Fire® Plus burners and burner kits in stock. All of these can be purchased as one complete unit or individual components. Custom burners are also available. See pages 41-47 for our offering of burners, sizes, controls, etc.

### What type of fuel can I use?

You can choose from either Liquid Propane (LP), or Natural Gas (NG). Most Crystal Fire® Plus burners and stocked fire tables come set-up for LP; however, a NG conversion kit included with each unit. If converting to NG, a certified gas technician should do the installation. When ordering an electronic ignition burner, you must specify LP or NG.

### Can commercial burners be used in residential applications?

Yes, many homeowners desire an electronic ignition burner system as it allows them to control the burner at a switch away from the burner, as well as use optional upgrades like remote controls.

### How many BTUs per hour are produced?

The BTU rating for each burner varies by size and fuel type. For exact BTU ratings, consult the burner manual.

### Can I use my OGC fire table on a wood deck?

Yes, all OGC fire pits & fire tables are okay to use on a wood deck if clearances are met. Crystal Fire® Plus burners are UL and ULC tested and listed and are used in all of our outdoor fire pits. They are okay to use on concrete patios, wood decks, composite decks, etc.

### What regular maintenance should be performed?

Regularly covering and cleaning your Crystal Fire® Plus burner will extend the life of the product and keep it performing at its best. Clean all loose debris, check fittings and tighten if necessary, ensure all gas lines are intact and free from obstructions, replace batteries in sparker if needed. Consult your manual for more information.

### Can I operate my fire table with a smart device?

Yes, we offer a Bluetooth® smart app option for our direct spark ignition system. You may interface your automated home system with our electronic ignition burners too. Contact OGC for more details.

### Is media included with the burners or fire tables?

Yes, we include clear tempered fire glass gems with each Crystal Fire® Plus burner unless otherwise noted. Various lava rock, crushed glass, and colored glass are also available.

### If I purchase a burner for my own project, what else is needed?

That depends on the project and can vary from additional controls, media, etc. You will need to specify the fuel source (LP or NG) used if it is a commercial or custom burner. We recommend working with your local OGC dealer to determine what is needed for your project. You may also contact us at sales@outdoorrooms.com.

### What happens to my burner or fire table when it rains?

If the burner or fire table is uncovered, water will drain through the perimeter of the burner pan. Water will not drain through the burner neck or build up in the burner — it will safely drain out the bottom of the fire table. All fire tables and burners are constructed of outdoor-rated, durable materials.

### Do I need to cover my fire table when not in use?

It is not mandatory to cover the fire table, but is recommended. Our tables are constructed of materials made to withstand outdoor exposure; however, we do recommend covering if not using for extended periods. This will prevent any unwanted debris from falling onto the burner. There are optional protective covers available.

### What is the difference between a commercial burner and a residential burner?

Commercial-rated burners are often required for commercial applications (hotels, restaurants, etc.). The OGC commercial burners are identical to the residential burners except they include electronic ignition (DSI), and emergency shut off switch, and need to be ordered specifically for NG or LP. In addition, they have more options available for controls either at the burner or away from the burner.

For more troubleshooting materials, visit [www.outdoorrooms.com/product-support](http://www.outdoorrooms.com/product-support)

## Custom Outdoor Kitchens

### What is the design and ordering process?

Start by completing the custom outdoor kitchen request form from either our catalog or website. From here, we will communicate throughout the process on pricing and revisions. The entire process can be completed in six weeks once everything is approved. Custom forms are available at [www.outdoorrooms.com/custom](http://www.outdoorrooms.com/custom).

### What type of grills can be built in?

Any grill that has the appropriate installation kit or specifications can be used. This includes gas, charcoal, wood, and pellet.

### Can I order a custom finish to match my home?

Yes, you can also order the unit unfinished and have it finished on-site to match your house and landscape by your local dealer, contractor, or landscaper.

### What are the outdoor kitchens built from?

The structure begins with G90 (marine grade) galvanized steel framing. It is then wrapped in Fiberock® backerboard. From there it can be finished from a variety of materials, or left unfinished to be completed on-site.

## Outdoor Fireplaces

### Are additional sizes available for ready-to-finish fireplaces?

We offer the ability to make custom fireplaces to your specifications. It is most cost-economical to keep the firebox and burner dimensions standard and change the structure dimensions. If you desire a different size firebox, we likely have the ability to provide you with a solution.

### Can I burn wood in any of these fireplaces?

No. These units are not wood-burning fireplaces. The benefits of a gas fireplace include a smoke-free experience, turn on instantly, and provide instant heat.

### Can I run a ready-to-finish fireplace on a standard LP tank?

A standard 20 lb liquid propane tank is only available for use with the 40" model. Other models will burn through gas too frequently.

### Is the fire pit or fireplace approved for use in screened porches, covered porches, gazebos, or lanais?

While the unit itself is not UL approved for this application, there should not be any problem provided the following guidelines are followed:

- A minimum of three walls are screened. Screens must be permanently open. They cannot have windows that can close.
- The screened walls must provide a minimum open area of 30%.
- All appliance ceiling and wall clearances must be met.
- Minimum porch area 96 square feet.

## Furniture

### How do I clean the fabric?

Most stains can be cleaned with mild soap and warm water. Blot the affected area and try to remove the stain with the cleaning mixture. For more detailed instructions, please visit [www.sunbrella.com](http://www.sunbrella.com).

### Do I need to store my cushions from the rain and/or winter?

The furniture is built to withstand a variety of weather conditions. You can choose to store them inside if you prefer that they are clean and dry to use.

### Is the furniture rust-resistant?

Yes, due to the complete powder-coating process on the frames.
