GREETINGS!

Welcome to our newest edition of the HPC Fire Inspired product Catalog. Our goal is to make your experience as easy and seamless as possible. We believe that customer service is not just a department, but rather it is the heart and soul of the entire company. Every team member plays an active role servicing and breathing life into the orders. HPC creates innovative and safe designs suited for our customers' lifestyles. Our designs are built to last: HPC Fire Inspired weaves quality, safety and technology into every appliance.

We stand by our designs, ensuring that they will last the test of time.

We are excited to highlight the following new programs to support our mutually beneficial growth aspirations:

1. Over 400 CSA certified appliances guaranteed for top performance
2. Lifetime Warranty on burners and pans
3. HPC Fire One app with AR and 3D models
4. Dealer Portal
5. SST Torpedo Burner yielding the biggest CSA Certified flame on the Market
6. HPC Hybrid Forno de Pizza Oven
7. Universal Gas Orifice
8. Stainless Steel Drum Smokers
9. Custom outdoor Kitchen Islands
10. Metal Fire Pit Enclosures
11. SmartARC TK Torches

On behalf of all the team at HPC, I would like to thank you all for your continued support. Cheers to a successful and prosperous year of making memorable moments!

All the Best!

Sean Steimle, Chief Executive Officer

NEW PRODUCTS

Metal Enclosures

Meet Agni and Tejas, our two brand-new all-metal fire pits. These new enclosures marry elegance and efficiency by providing out-of-the-box, turnkey simplicity and unrivaled finish quality. Select the Agni round fire pit design and pair it with our signature Penta Burner, or choose the Tejas rectangular design paired with our H-Burner. These plug-and-play fire features are the perfect fit for your backyard or outdoor living space, available with six different powder coat finishes: black, white, java, pewter, silver vein, and grey. With our new metal enclosures, there's something for everyone!

SmartArc TK Torches

HPC is thrilled to announce its latest and greatest technological marvel: the SmartArc TKTorch. After many years of research, prototyping, improving, and regimented testing, this thermocouple-free and pilot-free tiki torch can keep the party going forever with its smart flame sensing ignition system!

Flat Pan Fire Pits

We are glad to round out our already diverse product catalog even further by introducing two new CSA-certified fire pit inserts: the H-Burner Flat and the Linear Flat. While they were previously only available as bowl pan models, we saw your needs and have seized the opportunity to meet them. Available with all of our ignition systems (including small-tank LP systems), these fire pits will ship with UGO and will be another great fire feature that you can count on to light every time.

COMING SOON - Concrete Bowls

HPC is excited to introduce our new line of concrete fire pit bowls in 2025. Featuring a diverse selection of round, square, and rectangular bowls, these fire pits will be elegant and robust, featuring the best ignition technology and our industry-leading weatherproofing.

Look for news about concrete bowls in 2025! Final product may vary.

DEALER INCENTIVE PROGRAM

YEAR-LONG PRICING STRUCTURE

When you achieve annual sales benchmarks, you may unlock better discounts, which are locked in for the year. For more information, visit: hpcfire.com/dealer-incentive.

ONLINE ORDER FULFILLMENT:

HPC offers a searchable online ordering site through the HPC Dealer Portal: store.hpcfire.com.

SST TORPEDO™ BURNERS

The commercial-grade SST Torpedo™ burner, available in Penta, Linear and H configurations, is our newly designed nozzle which creates the largest flame on the market. The SST Torpedo Burners yield an enhanced bonfire like aesthetic. This is a great addition to our product offerings, providing customers with an array of flame options.

STANDARD BURNER (WITHOUT NOZZLES)

SST TORPEDO BURNER (WITH NOZZLES)

**THE SST TORPEDO™ IS THE LARGEST
CSA CERTIFIED FLAME ON THE MARKET.**

DISTRIBUTION MAPS

East & West Coast Distribution

In 2023, we acquired a West Coast facility in Las Vegas, NV. Our lead times are all the better for it! Below shows which states can receive shipments from which distribution center. Some states can receive their shipments as soon as 1 business day after the order is placed. Note: lead times may vary. Contact customer service for more information.

MOBILE FIRE PIT DISPLAY

Fire Feature Trailer

Our mobile fire pit display trailer brings the warmth and innovation of HPC Fire Inspired directly to you. This custom-built trailer is a showcase of our exceptional fire features, including stunning aluminum and copper fire pit bowls, the versatile Forno de Pizza oven, and elegant TK torches. Designed to inspire and ignite creativity, the trailer allows you to see, touch, and experience the craftsmanship and functionality that make our products stand out.

When we visit, we don't just showcase our products—we bring the experience to life! Our team sets up a live burn display, so you can see the beauty and performance of our fire features firsthand. And since the Forno de Pizza oven is part of the lineup, we often fire it up to cook delicious pizzas for our guests, making the visit both engaging and memorable. If you're interested in hosting our mobile display trailer and discovering the possibilities for your outdoor space, contact us today to arrange a visit. Let us bring the inspiration to you!

SALES TERRITORIES

INDUSTRY-LEADING WEATHERPROOFING

HOW WE ACCOMMODATE MOTHER NATURE

Gas fire features face many environmental challenges when placed outdoors, like rain, sleet, and snow. HPC designs its products to ensure our fire pits function effectively and safely in the field no matter the weather conditions. For example:

- All of our burners effectively prevent rainwater buildup. Their raised, central hubs paired with strategically placed weep holes, allow any excess water to escape.
- HPC's Electronic Ignition models all include a "drip leg" that diverts any water away from the electronics.
- In the face of wind, HPC's Electronic Ignition and Push Button/Flame Sensing models are all equipped with a thermocouple sensor that will shut off the gas supply if the flame is extinguished. In addition, HPC's metal "blow-out-box" acts as an added layer of protection, shielding the pilot flame from the elements.
- Dielectric grease is applied to electrical connections to keep water away from spade connectors.
- HPC offers wind guards to help prevent the wind from blowing out your flame.
- To enhance the longevity of HPC designs, we offer a variety of covers to be utilized when appliances are not in use.
- We utilize outdoor-approved Solenoid valves to prevent moisture infiltration.

TRAINING & EDUCATION

We believe that knowledge is power. The quality of education that we provide you about our products directly affects your business as well as our own. That's why we've chosen to prioritize our training and education programs: so that you can be equipped to give top-notch service to your customers. Since 2022, we have been working hard to provide opportunities to expand your HPC product knowledge. Read here about HPC University, our Innovation and Education Center, and how you can get involved with both!

HPC University

Our team has been working hard to build HPC University, a web platform that facilitates product education through study materials and quizzes. We've used it internally to educate our employees, and now it's available to our customers.

Right now, there are 14 courses available with videos, powerpoints, notes, and quizzes. Once you've gotten a grasp on the material, you can take the quiz and earn certification for that course.

We are always looking to add more content that would be useful to our customers. If you have a topic of interest, please contact us and let us know! Want a more in-depth or personal experience? You can train with our Training and Education Manager, Chuck Parsons, at our Innovation and Education Center!

Innovation and Education Center

In early 2023, we opened our Innovation and Education Center, a space dedicated to improving our products, processes, and our customer's education. The center includes a showroom and training area where our Training and Education Manager, Chuck Parsons, holds in-person, personalized classes for any dealers / distributors interested.

Training sessions are entirely free-- you only need to cover the cost of travel. We are happy to assist in making accommodations for your stay. These classes are the perfect chance to get one on one time with the most skilled technicians at HPC and ask the questions that you have about our products.

If you're interested in training with us, you can contact us at information@hpcfire.com or go online to hpcfire.com/training-booking-calendar and schedule an appointment today. We will contact you with verification or rescheduling if needed!

Looking for more?

Sometimes you need an answer on the fly. If you're in the field and need assistance troubleshooting, call our office at (937) 436-9800 M-F, 8am to 5pm EST and ask for tech support.

You can read about our products online at hpcfire.com/blog where we post weekly Tech Talks, discussing everything from sales to styling to the manufacturing process.

Furthermore, you can find some of our most-asked tech support questions on our YouTube channel at youtube.com/hpcfire.

Please feel free to forward all other inquiries or comments onto information@hpcfire.com.

Chuck Parsons, Training and Education Manager

CUSTOM FIRE PITS

Engineered-to-Order with CSA Certification

HPC is proud to offer custom fire pits, made to perfectly complement your environment. Whether you're looking for an atypical size of a stock fire pit, or something more complex like an outline of your home state, a sports team logo, etc, we would love to work with you. Collaborate with our team of experts to help bring your unique vision to life.

Getting Started

Outlining the details of your project is the first step to creating a one-of-a-kind fire feature. Consider the following:

- Installation location
- Application
- Enclosure type
- Ventilation and drainage
- Gas type
- Pan style and shape
- Burner style and shape
- Size

Having this essential information at the beginning will help our experts create the fire design of your dreams. With safety and innovation in mind, we will work with you to create something revolutionary.

CSA Certification

For engineered-to-order designs to be CSA certified, they must not exceed a certain range of BTUs:

Match Lit: 65k BTUs
Push Button: 250k BTUs
EI: 400k BTUs

Anything above these BTU ranges can be built, but will not be CSA certified, as they are classified as high pressure units.

Most Popular Designs

Our most popular custom designs include linear and rectangular fire pits, arched pans, and fire pits that include right angles. Each unique design elevates the outdoor space. You can find HPC custom designs all over America-- see our custom fire features at Commercial Park and Citizen's Bank Park in Philadelphia!

CUSTOM CONFIGURATOR

NEW in 2025

We are excited to announce that our custom configurator is now online! It allows users to build and review a custom project visually with data entry fields. Once the dimensions, styles, and technical specifications are recorded, the configurator will render a 3D model preview of the fire pit and provide you with an estimate on the spot.

Try out our new easy-to-use configurator today!

ROUND BOWL

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Bowl design includes 1.3" lip to rest over paving stones / enclosure. Depth to pan allows for better media retention
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Need LP or 24-Volt Models?

ELECTRONIC IGNITION / EI

ON/OFF models provide plug-and-play operation. Optional remote-activated switches are available. The HI/LO models can be controlled via Bluetooth and allows for adjustable flame height. Flame height can also be set on install with trimmer valve.

PUSH BUTTON IGNITION / FPPK

Push button fire pits are controlled with a simple knob and button on a stainless steel valve box. FPPK models feature a flame-sensing system that automatically turns the gas off if the flame is extinguished.

MATCH LIT IGNITION / MLFPK

Match lit fire pits are ignited simply by turning the key valve and lighting the gas with a lighter.

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Economical, flat design. Meant for a recess mount within an enclosure
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Install Confidence™ 17

ELECTRONIC IGNITION / EI

ON/OFF models provide plug-and-play operation. Optional remote-activated switches are available. The HI/LO models can be controlled via Bluetooth and allows for adjustable flame height. Flame height can also be set on install with trimmer valve.

PUSH BUTTON IGNITION / FPPK

Push button fire pits are controlled with a simple knob and button on a stainless steel valve box. FPPK models feature a flame-sensing system that automatically turns the gas off if the flame is extinguished.

MATCH LIT IGNITION / MFPK

Match lit fire pits are ignited simply by turning the key valve and lighting the gas with a lighter.

SQUARE BOWL

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Bowl design includes 1.3" lip to rest over paving stones / enclosure. Depth to pan allows for better media retention
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Highlights = best sellers

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Economical, flat design. Meant for a recess mount within an enclosure
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

ELECTRONIC IGNITION / EI

ON/OFF models provide plug-and-play operation. Optional remote-activated switches are available. The HI/LO models can be controlled via Bluetooth and allows for adjustable flame height. Flame height can also be set on install with trimmer valve.

PUSH BUTTON IGNITION / FPPK

Push button fire pits are controlled with a simple knob and button on a stainless steel valve box. FPPK models feature a flame-sensing system that automatically turns the gas off if the flame is extinguished.

MATCH LIT IGNITION / MLFPK

Match lit fire pits are ignited simply by turning the key valve and lighting the gas with a lighter.

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Bowl design includes 1.3" lip to rest over paving stones / enclosure. Depth to pan allows for better media retention
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Need LP or 24-Volt Models?

Change "NG" to "LP" in SKU for liquid propane applications
Change "120V" to "24VAC" in SKU for 24-V applications

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Bowl design includes 1.3" lip to rest over paving stones / enclosure. Depth to pan allows for better media retention
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Need LP or 24-Volt Models?

Change "NG" to "LP" in SKU for liquid propane applications

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Economical, flat design. Meant for a recess mount within an enclosure
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

CERTIFIED FIRE PIT INSERTS

Our CSA-certified fire pit inserts are made of durable stainless steel and designed to be the most efficient, safe, and impressive flame on the market.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure
- 24VAC models require HPC/SEBCO 24VAC, 100W power supply for inserts ONLY

BENEFITS

- Interlinking pans can be connected side by side to create a continuous flame
- Fully assembled, commercial grade, CSA-certified fire pit insert

FEATURES

- Raised hub for water mitigation
- Welded gas fitting for strength
- Weep holes for drainage
- Lifetime warranty on burners

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel
- Standard flex line is 36" (when applicable)
- * EI On/Off remote control sold separately

Highlights = best sellers

ELECTRONIC IGNITION / EI

ON/OFF models provide plug-and-play operation. Optional remote-activated switches are available. The HI/LO models can be controlled via Bluetooth and allows for adjustable flame height. Flame height can also be set on install with trimmer valve.

PUSH BUTTON IGNITION / FPPK

Push button fire pits are controlled with a simple knob and button on a stainless steel valve box. FPPK models feature a flame-sensing system that automatically turns the gas off if the flame is extinguished.

MATCH LIT IGNITION / MLFPK

Match lit fire pits are ignited simply by turning the key valve and lighting the gas with a lighter.

OUTDOOR FIREPLACES

CERTIFIED FIRE PIT INSERTS

Our certified fireplace inserts are sure to make an impact in your outdoor living space. Available in two distinctive styles and designed ideally for retrofit or new construction, these burners pair exceptionally well with our ceramic log sets.

Installation Considerations

- For outdoor use ONLY
- For use with fixed piping systems only; not for use with small tanks
- Select a location that allows for easy access for installation and maintenance
- Maintain 18" of vertical space and 18" of depth in fireplace cavity
- Consult product instructions for fireplace cavity width

BENEFITS

- Low profile with multiple media choices
- Weather resistant valve
- Fully assembled, commercial grade, CSA-certified fireplace insert

FEATURES

- Adjustable feet for burner height changes
- Bluetooth control (on select models)
- Weep holes for water drainage

SPECIFICATIONS

- Composed of black powder-coated stainless steel

MEET AGNI

Agni, named for the Hindu god of fire, is a 48" round fire pit available with our most advanced electronic ignition technology or basic match-lit controls. Producing up to 140,000 BTUs, this showstopper features our signature Penta burner for the most natural flame possible. The all-metal enclosure is available with a weather-proof powder coat finish in black, white, silver vein, pewter, java, and gray.

CSA-certified fire pit insert is included.

ALUMINUM BOWLS

COMPLETE FIRE FEATURES

HPC's lightweight aluminum bowl offers an aesthetic appeal while boasting a powerful flame and a superior ignition system.

Installation Considerations

- Ensure bowl is placed on level ground
- Do not block precut ventilation on bottom of bowl
- Natural gas: minimum 3.5" W.C.; Maximum 7.0"
- Liquid propane: minimum 8.0" W.C.; Maximum 11.0"

BENEFITS

- Extremely lightweight
- Sleek, modern look without the hassle of actual concrete
- Easy handling

FEATURES

- Built-in ventilation
- Two powder-coat finishes to choose from: Walnut and Concrete
- Lip pan separates from bowl

SPECIFICATIONS

- Made with spun 5052 aluminum
- Available with Match-Lit or Electronic Ignition control systems

Need LP or 24-Volt Models?

Change "NG" to "LP" in SKU for liquid propane applications
Change "120VAC" to "24VAC" in SKU for 24-V applications

Walnut

Concrete

FINISH OPTIONS

The Aluminum Bowl series is available with two finishes: concrete and walnut. The former resembles real concrete without any of the hassle, and the latter offers a wooden aesthetic for those who prefer a warmer look over the concrete's sleek, modern appearance.

The Aluminum Bowl includes built-in ventilation along the bottom ring of the bowl and a precut hole at its base for running a gas line. The pan separates from the bowl easily to simplify maintenance.

COPPER BOWLS

COMPLETE FIRE FEATURES

Our beautiful Copper Bowls are the perfect addition to an elegant backyard. Available in a variety of shapes, sizes, and with different finishes to choose from, there is no shortage of customization options when it comes to amplifying your outdoor living space with a copper bowl.

Installation Considerations

- Ensure bowl is placed on level ground
- For bowls that do not have ventilation, spacers are provided. Copper bowls need to be raised with a minimum of 3/4" gap & a minimum of 6" diameter hole in bottom
- 12VAC models require HPC/SEBCO 12VAC 100W power supply for copper ONLY

BENEFITS

- Beautiful hammered / smooth & oil-rubbed copper finish
- Built-in ventilation or spacers provided
- Access doors for convenient maintenance

FEATURES

- Many bowls are available with water scuppers for poolside applications
- Standard and Torpedo burner varieties are available

SPECIFICATIONS

- Poolside Fire & Water bowls use 1" FIP fitting for pool pump connection
- 12V models available for poolside applications

EVOLUTION 360

COMPLETE FIRE FEATURES

HPC's Vesta award-winning fire & water feature. Available in a Fire on Water "H2Onfire" variant, the first of its kind to be certified in North America, passing stringent wind, rain, and combustion tests.

Installation Considerations

- Ensure bowl is placed on level ground or utilize leg levellers
- When building enclosure, allow for maintenance access
- The Evolution 360 must be winterized

BENEFITS

- Remote control w/ auto re-light
- Operates under 1/4 psi, allowing for residential installations

FEATURES

- LED lighting
- Available with water scuppers or 360 degree water flow
- Adjustable levelling feet

SPECIFICATIONS

- Includes basin, 26" copper water bowl, and EI fire pit

* Optional remote available: 578-G4

NEW!

TK TORCH

COMPLETE FIRE FEATURES

Now with our new, patented **SmartArc ignition technology**, our TK Torches bring resort style living to your backyard without having to handle fuel or gels. They are robust, reliable, and built to last.

Installation Considerations

- 12" of the pole is to be buried underground

BENEFITS

- Sturdy torch pole / cap while maintaining a classic look
- Powerful flame for size
- Hardy SmartARC ignition technology

FEATURES

- Black powder coated pole
- Hammered copper or powder coated black torch head
- Easy-to-use match lit controls are just like lighting a candle

SPECIFICATIONS

- 96" post (when applicable)
- Burner assembly is #304 stainless steel for durability

NEW SmartARC TECHNOLOGY

HPC proudly presents its next evolution in outdoor ignition technology: SmartArc, an electronic tiki torch. This CSA-certified fire feature requires a **30-volt DC power** supply system that does not require flame rectification for operation and does not require a thermocouple or pilot flame. The system monitors the ignition's voltage and current output to maintain the flame. Available for both natural gas and liquid propane applications!

Using the SmartARC Tk Torch is simple: it can be turned on with a wall switch or the toggle switch on the bottom of the baseplate. Once installed, the system is ready to run within minutes!

SPORT PIT

COMPLETE FIRE FEATURES

For tailgaters and outdoor adventurers alike, the Sport Pit is a safe, reliable, and portable fire pit.

Installation Considerations

- Ensure Sport Pit is placed on level ground
- HPC recommends at least 10ft of space between Sport Pit and propane tank

BENEFITS

- Extremely lightweight and portable
- Easy transportation with spin on lid and handle
- Fire glass included

FEATURES

- Tip-over switch for automatic shutoff
- LP tank covers are available

SPECIFICATIONS

- 13 hour burn time with 20lb tank
- Built-in regulator with 13 foot hose

Match Lit - Sport Pit

Finish	Bowl Size	SKU - STANDARD BURNER	BTU	MSRP
Black	ø 20" x 13"	SPORTPIT20-BLK	37k	\$787.50

A FIRE PIT FOR THOSE WHO WANDER

The Sport Pit is the perfect fire pit for anyone who frequents tailgates or campgrounds. Lightweight, perfectly portable, and aesthetically pleasing, all while offering a solid flame, this fire pit makes a great gift. Customize it with a sticker from your favorite athletics team or outdoor brand and put it in the back of the camper! Includes lid with handle, fire glass, and hose for gas connection. Burns for 13 hours on a 20lb liquid propane tank.

LP Small Tank Cover

SKU	MSRP
ST-COVER	\$47.33

A logoed cover that fits over a small propane tank. Velcro flap allows hose access. Can be used with any LP model HPC products. Flat top can be used to set lightweight objects on top.

MATCH LIT KITS

FIRE PIT KITS & DIY UNITS

NOW INCLUDING PANS! HPC's uncertified match lit kits are the perfect solution for anyone looking for a match lit fire pit in sizes that are not typically offered. Although they are not certified by CSA, they are still completely safe-- they are simply classified as a "high pressure" unit.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- No more than two sides should be enclosed
- 36"-48" clearance to combustibles (depending on size); 36" up to 200k BTU
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure

BENEFITS

- Uncertified match lit kits are capable of surpassing the BTU limit set by CSA certification standards while still being safe and family-friendly.

FEATURES

- Includes everything you need to put a fire pit together: burner, pan, valve w/ chrome flange, flex line, and fittings.
- Raised hub for water mitigation
- Weep holes for drainage

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel

WHY CHOOSE UNCERTIFIED?

Our uncertified Match Lit kits are available as a more powerful alternative to their certified counterparts. To meet CSA certification requirements, their orifices can only be made to allow 65k BTUs to flow through them. However, many residences or commercial sites prefer the convenience of a match lit fire pit or the ease of a kit while still boasting a big, warm flame. These uncertified kits are the perfect solution-- the same easy controls but with orifices allowing up to 400k BTUs.

These units include a burner, pan, valve w/ chrome flange, flex line, and fittings.

READY-TO-FINISH

FIRE PIT KITS & DIY UNITS

Blank canvasses for your backyard overhaul. These units are designed to be tiled, painted, or stone-clad however you'd like.

Installation Considerations

Enclosure Cladding SQ FT:

- 26.6 (45" round); 34.6 (54" round)
- 30.3 (45" octagon); 39 (54" octagon)
- 34 (45" square)
- 30.6 (60" + 30" insert); 29.5 (60" + 36" insert)
- 31.3 (60" + 37" insert); 30.5 (60" + 49" insert)

BENEFITS

- Strong HardieBoard walls
- Unfinished to allow any cladding to match your space
- Custom shapes and dimensions are available upon request

FEATURES

- Pre-cut ventilation
- Pre-cut push button or match lit install holes
- Pre-cut insert space

SPECIFICATIONS

- Variable stock sizes
- 18" tall enclosure for comfortable height near seating

Need LP or 24-Volt Models?

Change "NG" to "LP" in SKU for liquid propane applications
Change "120VAC" to "24VAC" in SKU for 24-V applications

PRE-CUT TO FINISH

All of our LP Small Tank Series Ready-to-Finish enclosures include a cutout + door for easy propane tank access, in addition to the pre-cut key valve / push-button holes when applicable.

BUILT TO LAST

Ready-to-Finish enclosures are made with Hardie Board backer boards and steel bracing for durable, long-lasting construction.

OTHER KITS

FIRE PIT KITS & DIY UNITS

Hardscape block kits and uncertified push button kits.

Installation Considerations

- Minimum of 2" clearance between bottom of insert and ground is required
- No more than two sides should be enclosed
- 36"-48" clearance to combustibles (depending on size)
- Minimum two sides ventilated
- Minimum 50% free air space within enclosure

BENEFITS

- Easy to assemble
- Includes everything you need to put a fire kit together (does not include pavers)

FEATURES

- Raised hub for water mitigation
- Weep holes for drainage

SPECIFICATIONS

- Made of #304, 18 gauge stainless steel

FIRE PIT MEDIA

FIRE PIT ACCESSORIES

Media enhances the overall appearance of your fire feature by making it look more natural, stylized, amplifying the flames.

FIRE PIT COVERS

FIRE PIT ACCESSORIES

Fire pit covers help protect your fire pit against the elements, provide an elevated aesthetic appeal, and improve the fire feature's longevity.

Installation Considerations

- Consider the weather that your fire pit will need protection against, the size you will need, and what will best match your environment

BENEFITS

- Excellent weather mitigation to protect fire pit.

FEATURES

- Handles and straps where applicable. Various sizes and custom options are available.

SPECIFICATIONS

- Made of black or grey vinyl, stainless steel, copper, or powder-coat aluminum.

WIND GUARDS

FIRE PIT ACCESSORIES

HPC offers wind guards to help protect your flames from the wind and prevent the interference of debris.

Installation Considerations

- Consider the size of wind guard you will need. Wind guards can be combined with kits to accommodate atypically sized fire pits.

BENEFITS

- Easy installation using clips to support tempered glass
- Heat resistant glass

FEATURES

- Wind guard extension kits available to accommodate atypical fire pit sizes

SPECIFICATIONS

- Heavy duty 3/16" clear tempered glass
- Polished aluminum brackets
- Rubber feet

HIGH QUALITY PROTECTION

HPC provides high quality glass wind guards specially designed to complement our fire pits and provide additional safety against the active flames. Available in round, square, and rectangular configurations, and made from durable tempered glass, our wind guards are guaranteed long-lasting and heat resistant. Wind guards reduce flame disturbance caused by the wind and prevent loose items from getting too close to the flames.

NOTE: wind guards are designed to prevent accidental interaction with a live flame. They will get hot to the touch and can burn skin if touched.

EXTENDING WIND GUARDS

Square and rectangular wind guards can be extended to support fire pits with atypical dimensions. By using WG-EXT/STR KIT, one can combine additional glass panels with a base wind guard kit and protect the full insert. See right for example of an installed extension kit.

COMPONENTS

FIRE PIT COMPONENTS

Deck Installation Kit

SKU	MSRP
FPI-DECK20SQ	\$25.45
FPI-DECK39SQ	\$57.67

This kit is needed when installing a gas fire pit on a wood or composite deck. It provides flame and excess heat protection around input flex line connection(s). The basalt insulation is for inside the fire pit enclosure or bowl and should be placed over a layer of paver blocks (1" min. thickness). Incoming gas stub must protrude through the deck, paver blocks and insulation for fire pit flex line connection. The kit includes basalt insulation and instructions, and the insulation measures 39.3" x 39.3" (1 sq. meter)- larger fire pits will require more pieces. The insulation is easily cut to size with utility knife.

Paver Block Bracket - Match Lit Ignition

SKU	MSRP
KVMB-PB	\$131.93

Designed for the Dante Valve, this bracket allows flexibility and installation ease of the MLFPK decorative key valve. The face plate is adjustable from 8" to 12" width accommodating most pavers. The valve is securely mounted to bracket using decorative flange. (8-12"W x 3.875H x 5"D)

Replacement Remote Small Tank Kit - Liquid Propane

SKU	MSRP
STLPK	\$149.43

This kit is for use with CSA certified FPPK and MLFPK fire pit models less than 90k Btu- see fire pit insert section for approved models. The kits includes a 90-degree regulator with 72" hose, 24" Flex Line, small tank L-Bracket and fittings for FPPK or MLFPK connection.

Spark Igniter Kit - Match Lit Ignition

SKU	MSRP
SIK36	\$60.69

Easily installed match-lit igniter kit. Produces a battery-activated spark to ignite the gas.

Flex Form Install Collar

SKU	MSRP
IC44SS-FF	\$386.65

The flex form installation collar merges the gap between the fire pit structure and the insert pan for easy installation. This flexible install collar allows for an easy 3 step installation, saving you time with our one size fits all product. The collar can be formed to fit any shaped fire pit and offers an auto centering feature with a curved lip. 2 per carton; 44" x 6.2".

Step 1

Place the collar

Step 2

Install the collar

Step 3

Install the insert

NEW - Flame Control Systems - Electronic Ignition Control Systems

Electronic Ignition Flame Control Systems (FCS) are now available to order! These FCS parts are available for a variety of BTU ratings, gas types, burner styles, and sizes. **Contact us to get the part number you need!**

NEW SKUS - Flame Control Systems - FPPK Control Systems

This system utilizes a standing pilot (36" assembly) with thermocouple. It has flame sensing technology to safely manage the flame and gas flow. It also offers manual flame height adjustment, manual switch spark igniter (battery operated), and a safety pilot valve mounted in a stainless steel box. Includes blowout box, flex line, hard pipe, and fittings. **Contact us to get the part number you need!**

Size: 7.5"x6.5"x2.6"

Commercial Automatic Shutoff Timers - 120VAC

SKU	MSRP	Max Time	Description
694	\$496.42	2 hours	Stainless steel rotary timer (SPDT, 20A). 1/2" deep, double gang box recommended.
695	\$540.35	12 hours	Stainless steel rotary timer (SPDT, 20A). 1/2" deep, double gang box recommended.
694 NEMA	\$662.66	2 hours	NEMA 3R box kit including 694 timer + box.
695 NEMA	\$720.78	12 hours	NEMA 3R box kit including 695 timer + box.

KITCHEN ISLANDS

OUTDOOR LIVING AND DINING

In 2023, HPC Fire Inspired purchased island manufacturer Galaxy Outdoor in Las Vegas, NV. Now, under the HPC mantle, we are excited to offer prefab and custom ready-to-finish outdoor kitchen islands. From consultation to design, our experts will ensure your dream becomes a reality-- and we can ship that dream all over the United States.

BENEFITS

- Completely customizable outdoor kitchen islands
- Constructed of durable materials
- Provides space for entertaining as well as food preparation
- Steel-reinforced backing boards

FEATURES

- Appliances
- Storage
- Refrigeration and freezing
- Trash disposal
- Electrical outlets
- And more

SPECIFICATIONS

- Can be custom built to any dimensions

CUSTOM READY-TO-FINISH ISLANDS

Our bespoke kitchen islands are now available!. Our team can help you visualize and design the perfect compliment to your outdoor living space. See our wide variety of custom island components to start planning your dream kitchen today! Note: finish and appliances not included.

FORNO DE PIZZA

OUTDOOR LIVING AND DINING

HPC's handcrafted pizza oven. This glass mosaic-tiled refractory oven combines beauty and durability to create a product that will stand the test of time, and its design allows for flavor layering. From cooking to smoking to baking, the Forno de Pizza does it all.

Installation Considerations

- Determine application: for general use where mobility is prioritized, placed into a outdoor kitchen countertop, or as a freestanding, built-in structure
- Ensure access to natural gas line unless using liquid propane. If using LP, consider where you will place your tank

BENEFITS

- Beautiful, handcrafted oven made with glass mosaic tiles
- Great diversity of meals can be prepared, as with any oven
- Cart with wheels for easy transportation (on Forno series)

FEATURES

- Dual-fuel system allows for use of gas and wood simultaneously
- Many tile options, including custom colors
- Electronic ignition system

SPECIFICATIONS

- Oven made of refractory concrete, able to safely withstand 2400 degrees fahrenheit
- 304 Stainless steel hearth
- Cart is handcrafted with powder coated steel and cedar wood

Copper	FDP-FORNO/COPPER-EI-NG	\$6,499
Custom Color	FDP-FORNO/CUSTOM-EI-NG	\$7,499

AN OVEN FOR THE FOOD ENTHUSIAST

The Forno de Pizza hybrid oven was founded on the belief that some of our best experiences in life are spent with our friends and family. Cooking together with fire brings a powerful connection to the foods you're sharing. The Forno de Pizza honors timeless styling cues from ancient Greece while marrying it with modern conveniences. Designed to cook more than just pizza, the Forno is an oven for the food enthusiast.

The Forno Series is a portable, dual-fuel oven that can be easily transported thanks to its durable, powder coated, steel cart. Its classic igloo design offers even cooking. Operating on an electronic ignition system, this oven can efficiently burn natural gas, propane, or wood (and you can burn gas and wood at the same time for maximum heat). Six different glass colors are available to complement your outdoor living space.

BEHIND THE BRAND

The Forno design is not new-- in fact, it's ancient. The igloo-shaped oven has been used for thousands of years, embracing the three key heating methods: conduction, convection, and radiant heat. The flame heats the hearth stone, the heat is circulated in its igloo shape, and the walls itself heat up to radiate more cooking power.

A BUILT-IN OVEN

The Villa series (pictured on opposing page) is a hearth and oven designed to be incorporated into your outdoor kitchen countertop. This model gives you the freedom to create your space the way you want. Pair the Villa with wood storage, a fridge for ingredients, and a countertop food prep space. Doing so will create a space where you can gather to make memories and delicious meals.

DRUM SMOKER

OUTDOOR LIVING AND DINING

HPC's brand new stainless steel drum smoker. Utilizing patented Vortex technology, the drum smoker is designed to produce optimal cooking conditions while accommodating large quantities of food.

BENEFITS

- Powerful smoking technology allows for great meals every time
- Wheels for convenient transportation, plus wheel lock

FEATURES

- Dual vane intake system
- Patented Vortex technology for optimal air flow
- Two rack structure for cooking more food

SPECIFICATIONS

- Composed of 304 stainless steel

Stainless Steel Drum Smoker

SKU	MSRP
DS-SST	\$1,990.57

ONE OF A KIND TECHNOLOGY

The HPC Fire Inspired Stainless Steel Drum Smoker utilizes patented vortex technology to evenly smoke and cook food to perfection. Its unique design also maintains temperature better and burns wood more efficiently than competing smokers, allowing for up to an 18 hour cook time on one bag of lump charcoal. Furthermore, its tall, cylindrical design allows its user to smoke multiple food items, employing a two-rack internal structure.

Vortex technology is characterized by a dual intake vane system. The side intake tubes bring air in, the interior vanes distribute the air, and it exits through the exhaust on top, allowing for a delicious, evenly cooked meal every time.

NEW!

KAMADO ROCKET

OUTDOOR LIVING AND DINING

HPC's second smoker line-- a US-made, glass mosaic tiled smoker. With its defining rocket-like shape and dual-fuel efficiency, this smoker is sure to provide you and your guests with great meals for many years to come.

BENEFITS

- Dual-fuel smoking technology allows for gas, wood, or charcoal use
- Wheels for convenient transportation

FEATURES

- Beautiful glass mosaic tiles
- Rocket-like shape allows efficient air circulation
- Countless premium upgrade options

SPECIFICATIONS

- Made with #304 stainless steel
- Refractory concrete construction

The Kamado Rocket

SKU	MSRP
GXKLG	\$5999.99

THE KAMADO ROCKET

HPC's Kamado Rocket is the only US-made Kamado that can cook with any combination of gas, charcoal, and wood. It's unique, rocket-like shape allows for efficient air circulation and it's refractory construction is extremely effective at retaining heat.

Made with #304 stainless steel and aircraft-grade aluminum, we promise that your Kamado Rocket will be as durable as it is efficient. It's strength is paired with it's stunning finish: the Kamado's glass-mosaic tiles are a work of art in themselves and will make a beautiful addition to any home or patio.

Available in Ocean Blue, Pool Blue, Black Onyx, Retro, Copper, and custom colors. **The colors and styles shown here are not necessarily available for sale.**
