As I reflect on 2025 and look forward to 2026, I am reminded of this quote:

"Greatness is not in where we stand, but in what direction we are moving. We must sail sometimes with the wind and sometimes against it - but sail we must, and not drift, nor lie at anchor." - Oliver Wendell Holmes

Each year has its own challenges and 2025 had some for sure. In all I am thankful for everything WE accomplished together.

When it comes to purchasing products, we know you have options and we deeply appreciate and take great pride in being your supplier of choice. We will never take that for granted.

We give thanks for God's providence in 2025. We thank YOU – our customers and partners for your business & your trust in us. We are excited about 2026!

The outlook is good, solid & stable. We had excellent traction & sales with our new products last year for recreational swim ponds and our Sound Shield aeration systems.

We are pumped about our new products for 2026, such as the Pit Viper® 2.0 Wetland Diffuser Module, HTH Series™ Horizontal Pumps and Pond-Vive™ WG Bacteria Blend for ponds and water gardens! We are here to serve you & help in any way you need. We are committed to help you have your best year yet!

May the coming year be filled with God's peace, favor, wisdom, and abundant blessing in all you do.

Paul Cole, President & CEO

"And my God will supply every need of yours according to his riches in glory in Christ Jesus"
– Philippians 4:19

EasyPro Authorized Distributor and Dealer Program and Enforced MAP Policy

EasyPro has in place one of the strongest and most enforceable Unilateral Distributor and Dealer Authorization Program in the industry in conjunction with an actively enforceable MAP (Minimum Advertised Price) Policy, which allows us to protect the quality and value of the EasyPro Brand.

Authorized supply chain partners are confidently able to profitably capitalize on selling the added value of their services, product knowledge, and warranty services that unauthorized sellers will not be able to provide.

For more details about this program, email us at: map@easypro.com.

Introducing the New EasyPro Branding!

We're excited to share our refreshed EasyPro brand — a modern look designed to better reflect who we are today, the products we create and our commitment to our customers.

Why We Updated Our Look

EasyPro has grown significantly over the years, with new technologies, new product lines, and expanded markets. Our new look helps us communicate that growth with a cleaner, more flexible design that reflects our core mission: moving water and air to create healthier, more beautiful aquatic environments.

What Inspired the New Logo

The new EasyPro logo is built around the two elements at the heart of everything we do:

- Ripples symbolizing living water
- Bubbles representing aeration

Simple, recognizable, and true to our roots.

Fresh Look, Same Commitment

While our look has evolved, our values haven't changed. EasyPro remains committed to delivering reliable, innovative products and supporting healthy aquatic environments — from backyard ponds to large lake systems.

Thank you for trusting EasyPro! We're proud to bring you a brand that reflects the quality and care behind every product we make.

All EasyPro product packaging and merchandising materials are being upgraded to this new look. This will be a rolling change and products with newer packaging will be shipped as the current packaging is depleted.

TECH RESOURCES CAD Drawings and technical specs available for many of our products. Scan the code or go to CADdetails and search EasyPro.

PUMP VAULT

SUBMERSIBLE PUMP

RESERVOIR

PRO TIP

For the most natural look, use many sizes of rocks and stones when creating your feature.

45 mil EPDM Rubber Liner Lines the stream and reservoir to contain the water

Underlayment Installed underneath the liner to protect the liner from rocks, tree roots, etc.

Waterfall Filter/Spillway Makes a beautiful waterfall

EasyPro® Pump Vault Protects the pump

PRO-Blox™ Maintains the void space in a reservoir so less rock can be used (select kits)

Submersible Pump Moves the water

Pump Discharge Assembly Easier installation easier & removal for service

Flexible PVC Pipe Carries the water from the reservoir to the spillway

WIK Installation Kit Contains products needed to install your feature

Black Waterfall Foam Seals spaces between stones, controls water movement, prevents water loss, and improves the overall appearance of your stream

EasyPRO Pond Products

Just-A-Falls Kits
Everything you need to build beautiful streams and waterfalls

Choose one of these kits or make it your own – send your layout to quotes@easypro.com and receive a materials list for your project.

American Patio Creations

ECO-Series®
Mini Just-A-Falls Kit

This mini kit is perfect for those wanting the sound of water but are short on space!

Kit Includes:
- 45 mil EPDM rubber liner
- Liner underlayment
- 12" waterfall spillway
- EasyPro® Pump Vault
- PRO-Blox™ Contractor Grade Res-Cubes
- Flexible PVC Pipe and PVC glue
- 2200 gph direct drive pump and pump outlet assembly

ECO-Series®
Waterfall Diffusers

Outside Inc (MI)

The Original & Still The Best!
Simple Installation

- Ideal for use at beginning of streams and in block walls, pools and formal fountains

- Strong vertical rib design – stack block on top!

- 3½" low profile makes them easy to conceal, and the consistent 14" depth ensures that all sizes will work together

- Install right-side-up for a smooth sheet of water or upside-down for a more natural flow.

    - Units have dual 2" inlet

Contractor Grade!

ECO-Series® Spillways are available in 12" to 48" widths and the patented Pro-Series™ Modular System (page 11) can be made in endless sizes and shapes.

The perfect choice for Just-A-Falls (pond-less) systems, signs, swimming pool features and other installations where filtration is not needed.

UWD46

UWD23

UWD32

UWD16

VIDEO

One Diffuser – Two Water Flow Looks!

ECO-Series® Diffusers may be installed right-side-up (see UWD16 and UWD32 above) for a smooth sheet of water or upside down (see UWD46 and UWD23 above) for a more natural looking water flow.

Made to last and faster to install than any other spillway on the market!

Part #	Description	Recommended Flow (gph)	Stocking Code	Ship Weight	List Price
UWD16	16" diffuser	1000-4000	889994	5 lbs.	$119.99
UWD23	23" diffuser	1500-6000	8115496	8 lbs.	$153.99
UWD32	Dual 16" diffusers	2000-8000	6179987	10 lbs.	$239.99
UWD46	Dual 23" diffusers	3000-12000	5230982	16 lbs.	$307.99

Extra strong, load-bearing, vertical rib design allows block and rock to be stacked on top.

Out-of-the-box installation. Simply plumb into either side and it's ready to go.

Since block can be stacked on top, no additional support is needed.

EasyPRO Pond Products

ECO-Series®
One-Piece Waterfall Spillways

Easy Installation!
Ideal for Creating Just-A-Falls Water Features

- Rotomolded for excellent strength

- Dual inlets — 2" spinwelds (pre-installed) allow for easy plumbing into either end, a plug for unused end is included, CF12E has one 1½" inlet pre-installed on back of unit

- 4" diffuser tube lays across the bottom of the spillway between inlet fittings

- Water enters from either end (or both ends) and spreads out evenly across width of spillway

- Gravel can be used to fill the inside of the spillway creating a natural, even looking waterfall

PRO-Series™
Modular Waterfall Spillways

Original "Straight" Spillways

Expandable and constructed to last

Straight spillways, 18" tall in widths of 18", 34" and 50" come assembled and ready to be installed. The straight, inward and outward pieces are interchangeable and can be used in any combination. Make waterfalls as narrow or as wide as you wish!

- Dual bulkheads (included) allow incoming water from either or both ends. A plug is included for whichever end is not used.
- Waterfall spillways are designed to sit inside the liner eliminating any concerns of leaking. The liner simply goes under the spillway and up the back side. The bulkhead fitting secures liner to tub where the pipe attaches to the spillway.

Constructed To Last!
Patented Modular, Expandable Design

Pro-Series™ waterfall spillways have a plastic grating just below the water level that prevents the walls from bowing when buried and also allows you to stack 3" - 4" of rock on top to hide the spillway. Straight and curved spillway sections can be connected in any configuration.

EasyPRO Pond Products

Black Waterfall Foam
Minimal Expansion – Maximum Yield

Use to fill in cracks between rocks to prevent water from being "lost" over the waterfall

- Fills voids and holds small rocks & pebbles
- Minimal expanding foam - better density, better control and less waste
- Cans have a patented trigger system and a 'stow straw' which allows multiple uses for up to two weeks.
- Trigger will dispense foam in any position, no expensive gun required
- Non-fading carbon black
- 18 month shelf life
- Fish safe, non toxic formula

Buy 10 Cases (120 Cans) and SAVE!

Custom designs are our specialty

Due to the unique nature of many pond and waterfall applications, projects are often custom-designed. Simply send a drawing of your project to **quotes@easypro.com** and we'll help you plan your water feature and send you a materials list!
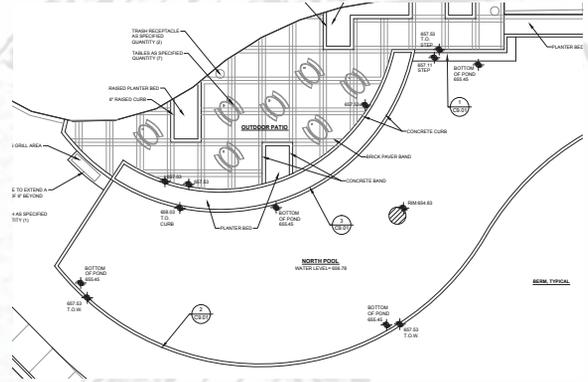

This is an example of a large pond kit. Kits can be customized to your exact needs!

ECO-Series® Pond Kits
Contractor grade at a DIY price!

Each kit includes all necessary items to build a top quality feature. See chart below for exact sizes on pumps, skimmers, filters, etc.

Perfect DIY Kit!

Kits Include
- 45 mil EPDM Rubber Liner
- Liner Underlayment
- Eco-Series® Skimmer
- Eco-Series® Filter with Media
- Continuous Duty Pump
- Check Valve Assembly
- Flexible PVC Pipe
- PVC Glue

PRO-Series™ Mini Pond Kits

Great DIY Kit!

Ideal for Retail Sales!

Mini pond kits have everything a do-it-yourselfer needs to build a beautiful, long lasting water feature with professional grade products.

All "ET" Kits Include

- 45 mil EPDM Rubber Liner
- Liner Underlayment
- Mini Skimmer with Filter Brushes
- Mini AquaFalls™ Filter with Molded Rock Lip
- 25' of 1$\frac{1}{4}$" PVC Flex Pipe
- Check Valve Assembly
- Silicone Sealer and PVC Glue
- EasyPro® Continuous Duty Pump

EM1621FB

PRO-Series™ Medium Pond Kits

All Medium Pond Kits include our medium AquaFalls™ Filter and PS1FB Skimmer for increased filtering capacity over the small pond kits.

All "EM" Kits Include

- 45 mil EPDM Rubber Liner
- Liner Underlayment
- Pro-Series™ Medium AquaFalls™ Filter/ Waterfall Base
- PS1FB Skimmer
- EasyPro® TH Pump
- EasyPro® Beneficial Pond Bacteria
- 2" PVC Flex Pipe
- Check Valve Assembly
- Three Mini LED lights with 45 Watt Transformer
- Waterfall Installation Kit (PVC Glue, Primer, Silicone, Black Waterfall Foam)

All EM pond kits ship complete on one pallet

EasyPRO
Pond Products

DURALINER™ POND LINING

The trusted choice of professional landscapers, nurseries, koi pond and water garden installers!

High quality 45 and 60 mil EPDM liner & accessories with the manufacturing capacity 100% focused on the Pond Market - not the roofing market.

For 2026, EasyPro has added an additional domestic manufacturer to produce DuraLiner. This increases production capacity and ensures steady product availability as demand grows, and also helps control pricing of both boxed & rolled liner products.

Liner from both manufacturing locations meets/exceeds lake & pond industry requirements for 45 mil EPDM fish safe rubber liner.

The look & feel may vary slightly.

VIDEO

- Easy to shape and form! Stays flexible even in extreme temperatures from -40° to 175°F.
- Weather and UV resistant - will not crack with age.
- Puncture resistant
- Fish and plant friendly

- More consistent throughout the roll & width. Does not contain the imperfections & blisters like other brands
- Available in pre-cut sizes, custom cut for your project, and by the roll for larger ponds
- **20 year limited warranty**

EasyPRO Pond Products

EPDM Tapes

DuraLiner™ offers both a 3" double sided seaming tape as well as 6" single sided cover tape. Both can be used to seam two panels of EPDM material together. ALWAYS use DuraLiner™ Primer to clean and prep the material.

Primer helps tapes adhere much better. Use a seam roller after tapes are applied to work out air bubbles and ensure a watertight seam.

PRO TIP Use double-sided tape for the liner overlap and use cover tape over the seam.

DLCS6100

DLST3100

CASE 10% DISCOUNT

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
DLST325	DuraLiner™ Double-Sided Seam Tape - 3" x 25'	12	833742	2 lbs.	$44.99

DLCS6100	DuraLiner™ Single-Sided Cover Tape - 6" x 100'	2	5284996	23 lbs.	$379.99

EPDM Primers

EPDM liner panels must be clean and dry for proper tape adhesion. Always use DuraLiner™ EPDM Primer to clean the material before applying tape.

- Use scrubber pads (below) to apply the primer. Let dry to the touch (flash off) before applying tape.
- Certain states require LVOC primer be used. Normal primer may not be sold or shipped into these states. (See below for list)
- Coverage - approx 100' of seaming per gallon

CASE 10% DISCOUNT

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
DEP32*	DuraLiner EPDM Primer - 1 qt.	12	243493	3 lbs.	$57.99
DEP128*†	DuraLiner EPDM Primer - 1 gal.	6	889994	10 lbs.	$119.99

DEP128LV †	DuraLiner LVOC EPDM Primer - 1 gal.	6	3109497	10 lbs.	$145.99

* LVOC primer required in these states: CA, CT, DC, DE, MA, MD, ME, NH, NJ, NY, PA, RI, VT
† One gallon primers must ship as hazardous material with additional charges via UPS or motor freight.

Liner Scrubber Pads

- These pads are used to apply seam primer, clean and prepare the seam area prior to installing tape or tape accessories
- Includes five pads

DL69P

Seam Roller

- Perfect for applying heavy pressure to the seam to properly fuse tape to liner
- Available in contractor grade with a wood/metal handle
- DLSR roller is made from silicone and will not stick to tape or liner

DLSRP

Water Seal

- Creates a flexible, water-tight seal between liner and substrate behind liner.
- Approx. 10 lineal foot @ 3/8" bead coverage

DLWS10

Pipe Boot

- Can be cut to fit pipes from 1" to 6⅞" O.D.
- Taped flange bonds to liner and stainless clamp to tighten around pipe

DLPB

10' Aluminum Termination Bar

- Pre-punched in 4" increments
- Use every hole when terminating underwater, every other hole above water
- Can be cut in half to ship small parcel or must ship via freight in full 10' lengths

FTB

FTBA

Edge Sealant

- Used along the outer edge of a seam to prevent water from getting in between liner panels.
- Approx. 20 lineal foot @ 1/4" bead coverage

Mid Michigan Ponds (MI)

Greenline, Inc. (MI)

EasyWeave Reinforced Woven Polyethylene Pond Liners

Ideal for lining large ponds — up to 75,000 square feet in one piece and custom made to your pond size

Engineered to offer great strength in a light weight liner material. The material is UV stabilized for years of worry-free protection against the damaging rays of the sun. Unlike regular multi-layered liners which simply stack the layers of liner on top of each other, these liners are woven together — this gives the ultimate in strength. Because of the light weight and strength, these liners can be manufactured in sizes up to 75,000 square feet.

VIDEO

- Designed for easy installation and long life span
- Puncture, abrasion and chemically resistant construction
- High strength HDPE woven core that provides superior dimensional stability
- Outstanding UV, ozone and oxidation resistance
- Unlike standard PVC liners, which need 12" of soil over the entire liner, these liners do not require coverage other than around the edges — this lowers the overall installation cost dramatically!
- Custom made liners require approximately 10-14 days for manufacturing and delivery

20 year limited warranty when under water, 10 year limited warranty when exposed to direct sunlight
Pipe boots are available for sealing around incoming lines below water, contact us for details

---

Liner Panel Size Parameters
Width: 12' width increment standard, 6' increment width available for additional $150.00
Length: Any desired length in 1' increments up to 300' long

See our website for video installations ▶ of liner, spec sheets, training and design tips

Applications

- Aquaculture
- Pond liner
- Soil remediation
- Exposed applications
- Oil and gas
- Irrigation reservoirs and canals
- Water management
- Hydroponic farming
- Fracking

**Liners over 16,000 sq. ft. come as large roll and ship on flat bed truck

Outside Inc. (MI)

Underliner Vent System

Helps to prevent uplifting or floating of pond liners caused by methane gases in organic soils or high water tables

- Provides a strong, secure channel for ground water and gases to freely flow through to designated exits (GE4EO end outlets)
- Prefabricated 6" strip consisting of a molded grid wrapped in geotextile fabric to permit a high flow of water into the molded grid while restraining soil particles

- Easy to install — no heavy equipment or skilled labor needed — Simply roll out in the deepest portion of your pond

PREVENT THIS!

GE4EO 4" End Outlet

Ships from our warehouse — no minimum order!

Part #	Description	Stocking Code	Ship Weight	List Price
GE6150	Underliner Vent - Roll - 6" wide x 150' long x 1" tall	4338249	24 lbs.	$409.99
GE4EO	4" End outlet	324258	3 lbs.	$29.39

Liner Air Vent

- Use these 1½" vents to release air or water trapped under pond liners
- Includes 1½" bulkhead fitting and pressure relief fitting
- Helps prevent liner from floating up when air (or water) gets trapped underneath

Part #	Description	Stocking Code	Ship Weight	List Price
LAV	Liner air vent	144997	1 lb.	$59.99

Pond Shield®

Ideal for sealing concrete ponds, pools and fountains. This non-toxic two-part epoxy sealer is designed specifically for sealing concrete, steel, wood, fiberglass, etc.

- Easy To Apply — No special equipment needed, just brush or roll on
- Flexible — remains flexible from -78° to 140°F
- Durable — Bonds to substrate rather than covering it, leading to longer life and less repairs/maintenance
- Beautiful — Provides a smooth, hard finish with no wrinkles or folds — Makes surface easier to clean
- 1.5 quart kits are easy to ship. Can be special ordered in larger containers but due to hardening time, smaller 1.5 quart batches are recommended

Each kit covers approximately 60 square feet of surface area!

Available in seven colors!

| BLACK |
| CLEAR |
| GRAY |
| COMPETITION BLUE |
| DELTA BLUE |
| WHITE |
| FOREST GREEN |

Actual colors may vary from swatches shown here.

Stocked in black. All other colors drop ship with a 2 kit minimum.

PRO-Blox™

High-Strength Reservoir Cubes

Contractor grade reservoir cubes allow for reduced rock tonnage, increased water capacity and shorter installation time

Using PRO-Blox™ instead of rocks in your reservoirs:

• Increases reservoir water capacity from 40% to 90%+ so your reservoir can be significantly smaller

• Reduces total rock tonnage

• Reduces installation time - smaller reservoir means less digging, less liner and less labor

• Ideal for high weight-bearing features, wetland filtration, Just-A-Falls™ and pondless features, under patios, pathways, sidewalks, etc., and rainwater retention.

• Ships unassembled to save space, quick and easy assembly on site

• HSC22 equals 2.4 cubic feet of space

• HSC44 equals 4.4 cubic feet of space

Minimum quantity: 2 – Pallet discounts available

EasyBog™ Cubes
Filtration Media-Filled PRO-Blox™

EasyBog™ Cubes are media-filled PRO-Blox™ that are ideal for bog/wetland filtration systems. Traditional bogs are filled with gravel layers which are hard to clean. EasyBog™ Cubes use a plastic media which is easy to clean and has a very long life cycle.

- EasyBog™ Cubes have over 1000 sq ft of surface area to hold beneficial bacteria, creating a highly effective bio-filtration environment.

- Each cube filters up to 2500 gallons of pond water

- EasyBog™ Cubes come pre-assembled with media installed. Super fast and easy to install!

![EasyPRO Pond Products]

6 Reasons Axiom is Better

1 Faster, more secure liner attachment

2 *Integrated UV option* for the 5000 gallon model

3 **Extended inlet flange –** place further from the pond edge

4 **Adjustable overflow –** finished pond level can be adjusted

5 **All-In-One option –** Skimmer/filter combo (PSA3600D) provides filtration without a waterfall filter box.

6 **Compatible with submersible or external pumps**

AXIOM®
Premium Pond Skimmers

- Front to back design - with the pump sitting behind the debris net instead of along side it
- One piece aluminum framed debris net makes cleaning quick and easy
- Includes black silicone

VIDEO **CAD**

PSA5000
- 29"l x 19"w x 21"h
- 6" water inlet
- Dual 2" factory-installed spinweld fittings (bulkheads) allow for one or two pump installations.
- Compatible with PS1 molded faux rock lid (page 30) and PS1UV UV Clarifier (page 29)

PSA7000
- 29"l x 19"w x 21"h
- 8" water inlet
- Dual 2" factory-installed spinweld fittings (bulkheads) allow for one or two pump installations.
- Compatible with PS1 molded faux rock lid (page 30)

PSA9000
- 33"l x 19"w x 23"h
- 8" water inlet
- Two 2" and one 3" factory-installed spinweld fittings (bulkheads) allowing for two smaller or one larger pump
- Compatible with SETS2 extension tube (page 29)

PSA11000
- 33"l x 19"w x 23"h
- 10" water inlet
- Two 2" and one 3" factory-installed spinweld fittings (bulkheads) allowing for two smaller or one larger pump

EasyPRO
Pond Products

ECO-Series®

Contractor Grade Pond Skimmers at a DIY Price

WeekEnding (MI)

Patented Design - No Leaks!
The industry's first "in-pond" skimmer

The ECO-Series Skimmer's patented design lets you install the skimmer INSIDE the liner. No cutting the liner, no silicone and NO LEAKS!

- Strong-ribbed design holds shape and allows dirt to hold skimmer in place when backfilled
- Ideal for retail sales
- Each skimmer comes complete with molded debris basket, filter pad and lid.
  - Debris basket is easy to remove and clean

Prelude PS4E

Ideal for use with mag drive pumps sold separately on page 82

- Maximum flow 1800 gph (30 gpm)
- Ideal for mag drive pumps
- 18"l x 15"w x 13"h
- 5" water inlet

Melody PS6E

- Maximum flow 4800 gph (80 gpm)
- 21"l x 22"w x 21"h
- 7" water inlet

Ovation PS10E

- Maximum flow 8100 gph (135 gpm)
- 21"l x 22"w x 27"h
- 9" water inlet
- Optional molded color lid available (#PS10ML, pg. 30)

Patented design installs inside the liner, eliminating the chance of leaks!

Part #	Description	Stocking Code	Ship Weight	List Price
PS4E	Prelude	3119991	12 lbs.	$159.99

Pond Products

PRO-Series™
Pond Skimmers

Innovative Design!
Choose between a vertical filter mat or brushes

- Two chamber design - no cutting filter pads to fit around the pump
- Inspect or remove pumps easily
- Flange above the opening where water enters allowing you to stack rocks along side and above the skimmer opening
- Internal filters help prevent pump from plugging and make cleaning easy
- Black silicone included
- See page 30 for replacement parts

CAD

Landscapes Plus (MI)

Mini Skimmer
PSMFB
Skims ponds up to 250 square feet

- Skims ponds up to 250 square feet
- Available in vertical style pad or filter brushes
- Works with small extension tube (part #SETS) - see page 29

Small Skimmer
PS1FB
Our best selling skimmer!

- Skims ponds up to 600 square feet
- Available with filter pad or filter brushes
- Works with small extension tube (part #SETS) - see page 29
- PS1FB also can be fitted with a UV (part #PS1UV) - see page 29

Large Skimmer
PS2FB
One of the largest skimmers available

- Skims ponds over 600 square feet
- Available with filter pad or filter brushes
- Works with large extension tube (part #SETL) - see page 29

Part #	Description	Size (LxWxH)	Weir Inlet	Max. Flow	Stocking Code	Ship Weight	List Price

See page 30 for replacement parts

PRO TIP
Make your pond look more authentic by moving the skimmer box away from the pond! Skimmer Extension Tubes sold on page 30.

800-448-3873

PRO-Series™
Pond Skimmers

External Pump Skimmer

EasyPro® is pleased to offer this innovative skimmer designed for use with external pumps

- Factory installed bulkhead fittings
- Pre-plumbed for easy bottom drain connection, includes plug
- Design ensures all water goes through debris net
- Uses same debris net, lid and extension tube as PSMFB
- Multiple skimmers can be plumbed to one pump, ideal for odd shaped ponds where one skimmer is not enough
- 8" weir inlet
- Black silicone included
- Maximum flow 4500 gph
- Measures 20" x 15" x 19"

2" pump connection

3" side inlet for bottom drain attachment

CAD
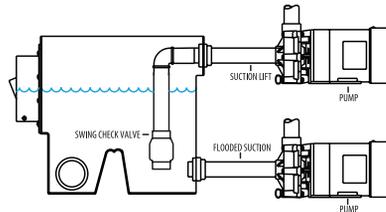

Part #	Stocking Code	Ship Weight	List Price
PSMEX	4266993	22 lbs.*	$355.99

Dimensional shipping rate applies

Ideal for use with external pumps on pages 89-92

Skimmer Extension Tube

Makes your pond look more authentic by moving the skimmer box away from the pond

- Patented 24" long extension tube allows skimmer to be set back from the pond edge
- Allows for planting between the pond and skimmer making it easier to hide
- Can be bolted together to create longer extensions if needed
- Price includes extension tube and bolts for installation
- Ideal for use in concrete walls

EasyPRO Pond Products

ECO-Series®
Waterfall Filters

Prelude Filter
for ponds up to 1000 gallons
- Includes filter box with "Spliner Lock" System, one filter pad, one bag of Bio-Blox media (one cubic foot) and one 1¼" PVC male adapter
- 20"l x 17"w x 14"h
- Optional lid on page 33: WF10L

Sonata Filter
for ponds up to 1800 gallons
- Includes filter box with "Spliner Lock" system, two filter pads, two bags of Bio-Blox media (two cubic feet) and one 1½" PVC male adapter
- 22"l x 25"w x 21"h
- Optional lid on page 33: WF18L

Melody Filter
for ponds up to 3000 gallons
- Includes filter box with "Spliner Lock" system, two filter pads, two large bags of Bio-Blox media (four cubic feet) and one 2" PVC male adapter
- 24"l x 25"w x 24"h
- Optional lid on page 33: WF29L

Symphony Filter
for ponds up to 6000 gallons
- Includes filter box with "Spliner Lock" system, two filter pads, six large bags of Bio-Blox media (twelve cubic feet), one 2" PVC plug and one 2" PVC male adapter
- 37"l x 29"w x 34"h
- Optional lid not available

Patented, Tool-Free System!
- An excellent choice for the "do-it yourselfer" with contractor grade quality
- User friendly installation - No tools
- Patented tool-free liner attachment system for the easiest installation of any similar filter on the market
- Biological filter media included
- Inlet "spin-weld" fittings are pre-installed
  - Extended lip to eliminate leaks

Tempo Submersible Pond Filter

Provides mechanical and biological filtration
- Pump sits under filter pads preventing plugging
- Comes complete with dual media — white inner roll provides biological surface area while black surface media traps debris
- Ideal prefilter for small mag drive pumps

Part #	Description	Size	Tubing Size	Max. Flow	Stocking Code	Ship Weight	List Price

WF6BP	Replacement bottom pad	12" dia. coil x 3½" tall	–	–	67879	2 lbs.	$10.49

![EasyPRO Pond Products]

Easy Installation!

Keep ponds clean and clear while supplying an ideal base for waterfalls and streams.

- **AquaFalls™ Filters are buried into the ground making them easy to hide.**
- **Order with Matala filter pads – the best quality filter pads on the market. When ordered with Matala filter pads, one green and two blue pads are included - AT includes one each. See Matala pads on page 34.**
- **Easy to install – simply bolt the lip to the filter!**

PRO-Series™
AquaFalls™ Waterfall Filters

CAD

Keep ponds clean and clear while supplying an ideal base for waterfalls and streams. Pond water flows up through the filter pads and filter media with high surface area, allowing suspended debris to be trapped and beneficial bacteria to provde natural, biological filtration.

Mini AquaFalls AT

- One 1½" inlet fitting in back of filter, tub size 18"l x 24"w x 18"h
- Includes tub with built-in lip, termination bar, stainless steel hardware, two filter pads with support stand, one mesh media bag (MB22), 1½" bulkhead fitting, 1½" PVC male adapter and black silicone

Small AquaFalls AS

- Two bulkhead fittings allow incoming water from either side – use plug (included) on unused side or install ball valve to use as drain. Tub size 26"l x 26"w x 26"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, two mesh media bags, two - 2" bulkhead fittings, 2" PVC male adapter, 2" x 1½" PVC reducing male adapter, 2" PVC plug and black silicone

Medium AquaFalls AM

- Two bulkhead fittings allow incoming water from either side – use plug (included) on unused side or install ball valve to use as drain. Tub size 35"l x 36"w x 28"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, three mesh media bags, two - 2" bulkhead fittings, 2" PVC male adapter, 2" PVC plug and black silicone

Large AquaFalls AL

- Two bulkhead fittings allow incoming water from either side – use plug (included) on unused side or install ball valve to use as drain. Tub size 36"l x 65"w x 36"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, six mesh media bags, two - 3" bulkhead fittings, 3" PVC male adapter, 3" PVC plug and black silicone

EasyPRO Pond Products

Matala® Filtration Media

EasyPro® is pleased to offer Matala filter media. This media is the finest biological media available and although it costs a little more — it will outlast all other similar products.

Matala is sold in two sizes of flat sheets:

Half sheets - 39" x 24" - can ship UPS   Full sheets - 39" x 48"

Available in four different densities for various types of filtration:

- **Black** Very coarse, open weave — good for high flow applications
- **Green** Coarse, semi-open weave — allows good flow yet filters well
- **Blue** Medium, fairly dense weave — traps a lot of debris, medium flow
- **Gray** Fine, dense weave — lower flow but thorough filtration

Easy to cut into custom sizes or shapes!
All densities are 1½" thick

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
MBK48*	Full sheet black material	5	357254	8 lbs.	$81.79
MGN48*	Full sheet green material	5	457252	9 lbs	$81.79
MBE48*	Full sheet blue material	5	257257	9 lbs.	$81.79
MGY48*	Full sheet gray material	5	966498	10 lbs.	$94.99
MBK24**	Half sheet black material	10	726596	4 lbs.	$37.99
MGN24**	Half sheet green material	10	527294	5 lbs.	$38.99
MBE24**	Half sheet blue material	10	528693	5 lbs.	$40.99
MGY24**	Half sheet gray material	10	231359	6 lbs.	$44.79

*Flat Full sheets ship motor freight. Full Sheets can be folded in half to ship with dimensional rates. Folding may leave a small crease in media but will not affect filtering.   ** Half Sheets ship UPS.*

PRO TIP For best results mix layers of Matala using a coarse layer first for large solids removal and follow with denser layers for fine debris.

The unique material design of Matala media is much more rigid than traditional polyester media. This makes it easier to clean but does not allow it to be rolled up like other media.

Matala® Biological Prefilter

- Use on all brands of mag drive submersible pumps as well as small external pumps to prevent plugging
- Made from durable Matala filter media for years of use
- Can be connected to each other end to end for increased capacity
- Dual filter media (green and blue) for complete mechanical and some biological filtration
- 1", 1¼" and 1½" hose tails included, fitting on filter is 1½" female pipe thread
- Maximum flow rate: 1900 gph on BIO11 and 3400 gph on BIO20

Solids Filter Material

Save money—cut your own filter pads!

Bulk media that can easily be cut to fit popular brands of skimmers, pressure filters, waterfall filter boxes or pump pre-filters

- Made from long lasting polyester—can be rinsed clean and reused over and over
- Most commonly used as a solids filter material before water enters biological media

PFM4
- 1" coarse density, off white
- Removes medium to large particles
- Ideal for higher flow
- Average life - 2 to 3 years

PFM5
- 2" coarse density, off white
- Used in waterfall filter boxes
- 56" wide roll for large jobs
- Average life - 2 to 3 years

Bio-Balls

These plastic Bio-Balls are a great media for use in all types of filters. Approximately 350 sq. ft. of surface area per cubic foot.

- Can be used as a loose media or put in mesh bags (page 34) for easy removal and cleaning
- Will not compact like other soft media, reduces channeling of water
- Available in three sizes: 1/3 cubic foot with media bag (BB05), 1 cubic foot without media bag (BB15) and 3.5 cubic feet without media bag (BB35)

BB15

BB05

Part #	Description	Stocking Code	Ship Weight	List Price

BBM2B

Bio-Blox Filter Media

An ultra high surface area media, created from a variety of different filter thicknesses and densities. EasyPro® grinds this media in-house, allowing us to offer very competitive pricing

- Great low-cost choice for large volume applications
- Approximately 525 square feet of surface area per cubic foot, allowing for maximum filtration in a given area.
- Long lasting material can be washed and reused over and over
- Use mesh media bags to hold Bio-Blox for easier handling (sold separately on page 34)

Part #	Description	Stocking Code	Ship Weight	List Price
BBM1	Bio-Blox, one cubic foot - box	628491	4 lbs.	$37.99

Ultimate Tube Media

The ideal filtration media in any type of filter! Ultimate Tube Media is a floating media with a higher biofilm surface than other plastic media.

- Round media with multiple internal baffles which create tremendous additional surface area
- Floating media - use in bead filters or other biological pond filters
- 5/8" diameter x 3/8" long tubes
- Approx. 500 square feet of surface area in every cubic foot

![EasyPRO Pond Products]

Adding a bottom drain helps keep a pond cleaner.

Fish waste and other muck that accumulate on a pond bottom can be easily removed by a bottom drain.

LEARN

Huisman Landscape (MI)

3" Bottom Drains

- Available with (BDA) or without (BD1) air diffuser in lid, using air increases circulation and cleaning capacity
- Both have dual rubber gaskets and six stainless screws for water tight penetration through liner
- For use with 3" schedule 40 PVC fittings and pipe
- BDA has ½" barbed inlet fitting, recommended air flow through diffuser is .5 - 1.5 cfm
- **Drain Kits** are designed to connect bottom drain into skimmer box and include bottom drain, 2" bulk head fitting, 2" valve and fittings. (Flex pipe sold separately, see page 94)

Water Level — *PVC male adapter* — *Valve to control flow* — *Debris Net* — *Bottom Drain Base* — *Flex PVC pipe* — *Bulkhead fitting*

BDA

| Part #	Description	Stocking Code	Ship Weight	List Price
BD1	3" bottom drain	3105448	4 lbs.	$140.58
BDA	3" bottom drain with air diffuser	6131997	5 lbs.	$175.99
BDK2N	Bottom drain kit with BD1 drain	8179994	7 lbs.	$239.99
BDK2A	Bottom drain kit with BDA drain including air diffuser	4190452	8 lbs.	$253.93

4" Bottom Drains

Heavy duty, rotomolded design offers superior strength

- Threaded center stand pipe securely attaches dome lid to base
- Sixteen stainless screws attach liner ring to base with water tight seal
- For use with 4" schedule 40 PVC fittings and pipe, use 4" male adapter (MA40) to connect to 4" pipe, use reducing male adapter (RMA4030) to connect to 3" pipe
- EBD4A incorporates an air diffuser into the dome lid — incoming air is delivered up through the center stand pipe allowing air tubing to be installed under liner
- EBD4A tubing adapter is 1/2", recommended air flow through diffuser is .5 - 1.5 cfm
- Drain Kits are designed to connect bottom drain into skimmer box and include bottom drain, 3" bulk head fitting, 3" valve and fittings (flex pipe sold separately, see page 94)

Why get an Air Blower?

PBF3600BL

It's a pre-wash cycle for filters!

Regular backflushing is required to clear bead filters of waste. Using an Air Blower first to loosen debris makes backflushing faster, more efficient and more effective.

$ Saves on electrical costs

Inefficient high-pressure and two-speed pumps are great for backflushing but are expensive to operate.

Using an Air Blower first to loosen debris allows the backflush to be completed with an energy-efficient, low-head circulation pump.

⚡ Faster backflushing using less pond water

Agitating the beads with an air blower prior to backflushing reduces the amount of pond water needed to clean the filter when backflushing.

Without an air blower, it can take more water and more backflush cycles to clean the filter when only the circulation pump is used.

💧 Improves filtration capabilities

Preventing the beads from clumping together as the filter ages, the Air Blower helps to keep the surface area of the beads cleaner for maximum filtration.

For filters with the backflush blower option, look for part numbers below that end in "BL".

Deluxe Skid Mounted Pond Filtration Systems

Plug and Go!

These deluxe filtration systems combine a pressurized bead filter with an external self priming pump and a UV clarifier into one completely plumbed, ready to install, "plug and go" filtration system. Simply plumb your incoming and outgoing water lines and you are ready to go!

- All plumbing is completed and unions included at all connection points allowing for easy maintenance down the road
- Electrical post complete with 115v power outlet and 15' power cord for easy "plug and go" installation
- Plumbing includes a bypass line around filter/UV
- Filter comes complete with backflush blower upgrade

Eco-Clear Pressurized Pond Filters

EasyPro® Eco-Clear Pressure Filters provide excellent, dual filtration for ponds. Ideal for preformed ponds and small water features needing effective filtration.

- Sturdy filter housings – can be partially buried up to cleaning ring for easy concealment
- Dual filtration – filter pads collect solid debris while bio-media provides biological filtration
- Optional UV for crystal clear water
- Filters are easy to disassemble and clean, making maintenance a snap!
- Multi-step connectors – inlet/outlet fittings accept a variety of tubing sizes
- Three year warranty

EC2600 and EC3900 unit bonus features

- Cleaning indicator – shows when filter needs to be cleaned
- Backwash valve to extend time between full cleanouts

Optional UV	Cleaning Indicator	Backwash Valve	Backwash Port	Multi-Step Connectors	Sturdy Filter Housings	Dual Filtration

Complete Pond Filtration Made Simple

Eco-Clear Pond Filters are also available in complete kits with our new Eco-Clear Pumps.
See next page for complete kits and page 84 for Eco-Clear Pumps.

Model	UV Wattage	Cord Length	Pond Size*	Fittings Included	Unit Size W x D x H

Eco-Clear
Complete Pond Filtration Systems

Pond filtration has never been easier!

These kits combine our new Eco-Clear UV Pressure Filters and Submersible Pond Pumps for complete pond filtration.

Included:

- Eco-Clear Submersible Pond Pump (details on page 84)
- Eco-Clear Pressurized Pond Filter (details on page 40)
- Kink free tubing and clamps

See chart below for details

How it WORKS

The Eco-Clear Pump sends dirty pond water to the pressurized filter.

The dirty water passes through **multiple densities of foam filters** and is cleaned of solid debris.

Water then passes through **bio-media** for excellent biological filtration.

Filters in these kits have **high-intensity UV lights** that destroy algae cells, eliminating green water. Cleaned water is returned to your pond.

EASYPRO
Pond Products

ESF1250 with three tier nozzle and diverter valve

Simple, effective filtration for small and pre-formed ponds!

Submersible Pump/Filter/UV Combo

Combines pump, filter, UV and fountain into one complete unit. Simple effective filtration ideal for small and pre-formed ponds.

- 11 watt UV for crystal clear water
- 675 gph pump with 16' power cord, 48 watts
- Mechanical and biological filtration media included
- Reusable filter pad is easy to clean
- One year warranty
- Swivel joint for easy leveling of fountain nozzles

Includes three fountain nozzles and diverter valve!

Simple design makes routine maintainenance easy

EASYPRO Pond Products

AQUA ULTRAVIOLET
Ultima II Filters

Ultima II Filters are superior to bead filters because of their patented Bio-Tube media which does not clump together like beads. No need for a blower for backwashing!

- Very easy to backwash — never get your hands wet
- Unique media allows for high flow rates with minimal back pressure
- Bury in ground (up to control head) for easy hiding when used as a pond filter
- Patented Bio-Tube Filter media has an extremely high surface area (one cubic foot of media has 750 square feet of surface area) for maximum filtration. This lightweight, non-clogging media is seeded with natural bacteria for quick filter start up after installation.

All units ship factory direct and will incur a $20 Aqua UV drop ship fee.

Part #	†Maximum Pond Size	Maximum Pounds of Fish	Maximum gpm Flow	Inlet/Outlet Size	Filter Size Height x Diameter	Stocking Code	Ship Weight	List Price
AA200	20,000	1225	125	2"	48" x 31"	93684123	190 lbs.*	$5,894.59

WFS37

WFS50

WFS100

WFS150N

BFS

Box style valves (BFS) replace water lost from evaporation or small leaks in systems, easy to mount inside skimmer!

Water Fill Valves

Brass Fill Valves

- Ideal for use in skimmers, vaults and the water fill box (below) for maintaining water levels in many different applications
- Heavy duty brass body and brass rods are far superior to normal plastic fill valves
- All valve rods (arms) can be adjusted to fit your exact requirements
- WFS37 and WFS50 include fittings to connect to irrigation tubing

Box Style Fill Valve (BFS)

This durable fill valve is ideal since the float is contained inside the valve box. No chance of damaging unit when lifting pumps in or out of skimmer.

- Recommended water pressure 35 psi
- Includes fitting to connect to 1/2" vinyl tubing
- Fits in small or large skimmer
- Measures 7½" long x 3" wide x 4" high

Part #	Description	Overall Length	Gpm Flow at Psi: 15	Gpm Flow at Psi: 35	Stocking Code	Ship Weight	List Price
BFS	1/2" box style fill valve	7½"	6	5	733742	2 lbs.	$44.99

WFS150N	1½" brass fill valve	19½"	90	129	7299996	5 lbs.	$224.99

Water fill valves may require inline pressure regulator to keep pressures below recommended limits

PRO-Series™ Water Fill Box

Ideal for auto fills inside ponds, Just-A-Falls systems and formal pools!

- A good way to mount a water fill valve in a pond without a skimmer
- Provides an ideal housing in which to install an auto fill, 1/2" bulkhead included
- Sits inside the liner and holds fill valves up to 13" long
- 1" overflow bulkhead is included for optional overflow drain
- Auto fill valve sold separately

Sinacori Landscape (MI)

Designed to house WFS37 and WFS50 fill valves (sold separately above)

WFB	15" long x 8" x 8"	868243	4 lbs.	$90.99

EasyPRO Pond Products

NEW!

PRO+ MAXIMUM STRENGTH
POND & WATER GARDEN TREATMENT

5X FORMULA

Pond-Vive™ WG Beneficial Bacteria Blend
Now for Water Gardens

FIVE BILLION CFU/gram!

A super concentrated blend of beneficial bacteria and enzymes

- Reduces muck buildup and eliminates stale pond odors
- Improves water clarity and reduce oxygen demand
- Eliminates excess nutrients
- Reduces ammonia, nitrite, nitrate and phosphate
- Cold weather bacteria strains for results down to 38°F
- Four enzyme-blend kick starts the break down process
- Easy to use one ounce water soluble packets

1 packet per 1000 gallons

CLARIFY WATER REDUCE MUCK
REMOVE EXCESS NUTRIENTS

All Season Liquid Beneficial Pond Bacteria

All season beneficial pond bacteria

- Works in water temperatures as low as 38°F so you can use it in Spring, Summer, and Fall!
- Removes ammonia, nitrite, nitrate, phosphates and sludge
- Maintains a healthy, balanced eco-system and reduces pond maintenance

2 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
ASB16	Pint/16 fl. oz.	12	811247	2 lbs.	$14.99

ASB128	Gallon/32 fl. oz.	4	343497	10 lbs.	$57.99

Seasonal Boost Cold Weather Beneficial Bacteria

A proven blend of beneficial pond bacteria, which "naturally" promotes a healthy ecologically balanced ecosystem.

- Allows quicker spring startup and longer late season action
- Use when water temperatures are below 55°F and as low as 38°F to naturally keep pond water clean and clear
- Promotes break down of leaves and organic debris
- Reduces toxins, problem nutrients and murky water
- Safe for use around pets and wildlife

3 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
SWT16	Pint/16 fl. oz.	12	211247	2 lbs.	$14.99
SWT32	Quart/32 fl. oz.	12	315748	3 lbs.	$20.99

Muck & Sludge Remover Beneficial Bacteria

This unique formulation is produced using a "no mess" powder in water soluble packets or blocks, which immediately begin to dissolve upon contact with water. Ideal for use with "All Season" Liquid Bacteria above.

- Reduces toxic ammonia and nitrite
- Reduces problem causing nitrate and phosphate
- Reduces murky water caused by organic wastes
- Reduces organic bottom muck
- Reduces odors
- Works in water temperatures down to 45°

PRO+ MAXIMUM STRENGTH POND & WATER GARDEN TREATMENT

Aqua Defend
Defend your pond all season long!

Defend your pond all season long! This unique water treatment is designed to help keep pond water clean and clear. Aqua Defend™ contains a proprietary blend of all-natural enzyme-producing bacteria along with ingredients to buffer your water and help to keep your rocks and waterfalls clean.* The strong combination of products will help keep your water feature looking its best!

- Bacteria blend is especially effective at breaking down waste and muck buildup
- Additive to help prevent buildup on rocks, waterfalls and in streams*
- Additive to bind phosphates, buffer pH and help settling of particles
- 1 oz. scoop included in 1 and 2 pound jars
- 8 oz. scoop included in 5 and 10 pound pails
- Apply when water temps are 50°F and above

When rocks, waterfalls and streams need a more thorough cleaning, use EasyPro® Rock and Waterfall Cleaner on page 52.

All-In-One Pond Package

Combines the four most popular water treatments needed for a new pond start-up into one easy package

- Includes four 16 ounce bottles (one each) of All Season Bacteria, Flocculant, Dechlorinator, and Liquid Barley Extract
- Treats up to 8000 gallon pond

Ideal for Newer Ponds

2 oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
WTP4	16 oz. ea.	4	326996	5 lbs.	$35.99

Premium Pond Salt

Koi and goldfish require salt to control their electrolyte balance and also to promote their natural slime coating. This slime coating protects them against fungus and disease.

- Use one to two pounds per 100 gallons, three pounds per 100 gallons when treating for disease
- 99% pure - made from evaporated seawater, will not harm plants when applied correctly
- Reduces fish stress and improves disease recovery

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
EPS10	10 lb. pail	6	816495	12 lbs.	$21.99
EPS20	20 lb. pail	4	526243	23 lbs.	$34.99

EPS50B	50 lb. box	2	638243	52 lbs.	$50.99

Barley Straw Liquid Extract

This liquid formula contains the active ingredients derived from barley straw and eliminates the need to use unsightly pellets or bales of barley

- All natural liquid formula - easier to use than pellets or bales
- Safe for use with aquatic life and pets
- Keeps water clean and clear
- Works faster than straw

2 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
BSE16	Pint/16 fl. oz.	12	311993	2 lbs.	$15.99
BSE32	Quart/32 fl. oz.	12	817244	3 lbs.	$22.99
BSE128	Gallon/128 fl. oz.	4	144993	10 lbs.	$59.99

Barley Straw Bales

With exposure to sunlight and oxygen, Barley Straw Bales break down and the released compounds modify a pond's chemistry, improving water quality.

- Lasts approximately three months
- Install replacement bale three weeks prior to removing old bale for continued coverage
- Safe for use with aquatic life and pets

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
EBS	1/2 lb. bale*	12	810493	1 lb.	$13.99
EBS1	1 lb. bale*	12	213497	2 lbs.	$17.99

Bale sizes are approximate. Packaged by volume, weight may vary slightly

Barley Straw Pellets

All natural and less messy than traditional barley straw bales

- 100% natural product from concentrated barley straw
- Safe for use with aquatic life and pets
- Fast acting - steady and extended release
- Ideal for use with EasyPro® All Season Bacteria and Phosphate Binder
- 8 oz. scoop included in 5 and 10 lb. pails

1 scoop per 300 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
EBP5	5 lb. pail	4	818743	7 lbs.	$24.99
EBP10	10 lb. pail	4	625492	12 lbs.	$33.99
EBP40	40 lb. bag	1	159996	41 lbs.	$79.99

Natural Phosphate Binder

Natural plant-based powder formulation provides a non-chemical alternative to using aluminum sulfate (ALUM) in koi ponds and watergardens

- Binds problem causing phosphate
- Provides approximately 70 beneficial trace minerals
- Buffers pH
- Provides minor flocculation (settling) of suspended particles
- 1 oz. scoop included
- Also available in 45 lb. bulk pail—see our Lake & Pond catalog

1 scoop per 500 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
PF2	2 lb. jar	12	917997	3 lbs.	$23.49
PF7	7 lb. pail	4	152499	9 lbs.	$69.99
PF15	15 lb. pail	4	586241	17 lbs.	$114.99

EasyPRO Pond Products

Dechlorinator
Water Conditioner

One of the most concentrated water conditioners available. Trusted, economical and ideal for use in water gardens and koi ponds.

- Apply directly to new ponds or immediately after water changes
- Protects fish by buffering pH and instantly neutralizing chlorine and destroying chloramines found in city water.
- Detoxifies heavy metals (including copper) found in both city and well water.
- Maintains a healthy, balanced eco-system and reduces pond maintenance

1 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
CON16	Pint/16 fl. oz.	12	211241	2 lbs.	$14.99
CON32	Quart/32 fl. oz.	12	615522	3 lbs.	$20.69
CON128	Gallon/128 fl. oz.	4	544992	10 lbs.	$59.99

Dechlorinator PLUS
Water Conditioner PLUS

All the benefits of EasyPro Dechlorinator PLUS essential electrolytes to reduce fish stress

- Maintains a healthy, balanced eco-system and reduces pond maintenance
- Essential electrolytes enhance skin slime coat and reduce fish stress

To remove Ammonia: 1 fl. oz. per 60 gallons of water
To remove Chlorine: 1 fl. oz. per 120 gallons of water
To detoxify Chloramine: 1 fl. oz. per 192 gallons of water

1 fl. oz. per 60 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
CNP16	Pint/16 fl. oz.	12	711243	2 lbs.	$14.99
CNP32	Quart/32 fl. oz.	12	217776	3 lbs.	$23.69
CNP128	Gallon/128 fl. oz.	4	849493	10 lbs.	$65.99

Rock & Waterfall Cleaner

Quickly and effectively clean rocks, waterfalls, water features, fountains, statues, plant pots, etc.

Dry Formula

1 lb. per 300-400 sq. ft.

- Powdered formula brings powerful oxygen based cleaning to large ponds or lakes as well as smaller koi ponds, water gardens and aquariums
- Great for use with fish, birds, pets and wildlife
- Lifts debris to pond surface where it can be removed by net or skimmer

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
OXY2	2 lbs.	12	516498	3 lbs.	$21.99
OXY8	8 lbs.	4	736742	9 lbs.	$48.99
OXY25	25 lbs.	2	497497	28 lbs.	$129.99

Liquid Formula

- Commercial strength oxy-based cleaning
- Lifts debris to pond surface where it can be removed by net or skimmer
- Simply pour into area with most active water movement for best mixing
- Safe for use with fish, birds, pets and wildlife

1 fl. oz. per 300 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
OXYL32	Quart/32 fl. oz.	12	414997	3 lbs.	$19.99
OXYL128	Gallon/128 fl. oz.	4	829995	9 lbs.	$39.99

800-448-3873

Flocculant
Water Clarifier

This concentrated formula quickly clears murky pond water by attracting suspended particles.

- Attracts suspended particles together allowing them to settle out of water column
- Best when used with EasyPro® Pond Bacteria

1 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
EWC16	Pint/16 fl. oz.	12	710793	2 lbs.	$14.39

EWC128	Gallon/128 fl. oz.	4	541243	10 lbs.	$54.99

Pond and Water Feature Dyes

Formulated for use in koi ponds and water gardens.

- Pond dyes help filter out UV rays from the sun
- Does not stain or harm fish or plants once dispersed
- Blue dye gives water a classic blue look
- Black dye gives pond waterr a more "reflective" look
- Serenity dye is a blackish-blue combination

1 fl. oz. per 1000 gallons

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
PD16	Blue-Pint/16 fl. oz.	12	610273	2 lbs.	$13.69

Concentrated Blue Lake Dye

Our best selling dye

- This is a nontoxic and harmless pond dye for use in ponds and lakes
- Waters can be used for swimming and irrigation once product is dispersed
- Compatible with most aquatic herbicides and algaecides
- Creates "Caribbean" blue water

30 & 55 gallon drums

Part #	Size	Stocking Code	Approx. Ship Weight	List Price
ECPD-30G	30 Gallon Drum	62372992	300 lbs.	$3,389.99
ECPD-55G	55 Gallon Drum	14269994	500 lbs.	$6,099.99

GreenClean — Granular Algaecide

Ideal string algae control in ponds, waterfalls, fountains and streams. GreenClean Granular works through oxidation, breaking down algae cells on contact. Dead matter floats to the surface where it is removed by a skimmer or a net. Ideal for use with bacteria. Once it kills algae, bacteria go to work cleaning up organic material.

- Kills algae on contact — visible results in minutes
- For use in water features containing live fish and plants
- Effective, eco-friendly chemistry — no copper residue
- Controls string algae in ponds, streams or waterfalls
- An EPA registered, organic algaecide, so you can feel good about what is in your water
- Eco-friendly chemistry and Organic Materials Review Institute (ORMI) listed

Application Rates & Tips for Green Clean Granular

Use 1/2 pound (1 cup) per 1000 gallons of water to control existing problems,
use 1/4 pound (1/2 cup) per 1000 gallons as maintenance dosage

1. Apply early in the morning on clear sunny day
2. Turn off circulation
3. Apply to affected areas, including waterfalls and streams
4. Turn circulation back on after 10-20 minutes

5. Skimming/netting dead algae helps prevent further algae growth

Note: Always read and follow label directions

Part #	Description	Size	Treats Up To	Case Quantity	Stocking Code	Ship Weight	List Price

Best Seller

AlgAway 5.4 Algaecide

Ideal treatment for string algae

- Controls algae growth and eliminates green water in ponds
- This product is safe for use with fish and plants (not snails, shrimp and crustaceans)
- Keeps your water surface clear and beautiful
- For ponds with heavy algae growth, first clean off excess algae from the sides of the pond and any ornaments or water features - then add one cap full per 60 gallons of water for complete algae treatment
- When treating a pond with fish, be sure it is well aerated
- *Not for sale in Rhode Island*

Application Rates

1 fl. oz. treats 350 gallons
16 fl. oz. treats 5678 gallons
32 fl. oz. treats 11,356 gallons
128 fl. oz. treats 45,424 gallons
320 fl. oz. treats 113,560 gallons

Note: Always read and follow label directions

Thermo-Pond Heater/De-icers

Keeps a small hole open in the ice during freezing conditions to allow harmful gas to escape from the pond water.

TP100
- Energy efficient
- Uses only 100 watts of power – pays for itself in the first month.
- Tested in Northern Wisconsin ponds down to -39°F
- Completely enclosed in plastic — no danger of heating element damaging liner
- One year limited warranty

TPH250, TPH750, TPH1500
- Can be used as a surface de-icer or bottom heater
- Thermostatically controlled — operates only when needed, saving electricity
- Two year limited warranty

Pond Products

Pro-Clear Aire™ Aeration Compressors

Improve water quality with the benefits of aeration! These compressors are designed for the demanding job of 24 hour operation.

- Quiet, energy-efficient operation
- Dual linear diaphragm design for maximum air flow
- Few moving parts - simple routine maintenance
- Oil-less design makes them ideal for pond aeration.
- Aluminum housing dissipates heat for longer product life
- No electricity in the water - safe for fish, pets and family
- Six foot power cord - 115 volt
- One year limited warranty (wearable parts exempt)

KPA25, KPA40
Dual Use Outlet

Use with included 3/8" brass barbed connector & clamp or 1/4" female pipe thread connection

KPA60, KPA80
3/4" Outlet

Use with 3/4" or larger tubing & clamp

Includes 3/4" tubing connector and 2 clamps

PRO TIP These in-line units can be easily concealed with Mock Rock™ Landscape Boulders found on page 66.

MAP
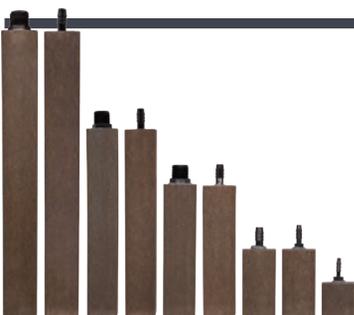

Pro-Glass Alumina Air Stones

The Best Choice for Aquaculture Applications

Three times stronger than white silica air stones!

- Creates finer bubbles for increased aeration efficiency with no increase in pressure
- Inlet fittings are set into the body of the diffuser, making them much less likely to break or twist loose
- Higher density means self-weighting
- Cleanable with muriatic acid or chlorine
- More resistant to ozone

EasyPRO Pond Products

Premium Pond Cover Netting

Strong black netting is protected with a UV coating to last for years!

- Currently most other manufacturers offer a small variety of prepackaged netting that does not fit the needs of many pond or stream applications. EasyPro® Premium Pond Cover Netting is available in 10', 20' and 30' wide rolls each 100' long
- You simply pull out the length needed, cut it and BINGO — you have a cover net exactly the length you need!
- Selling EasyPro® netting allows you to cut your inventory down to only three SKUs and greatly increases your selling choices
- By stocking pond cover netting like you would stock liner, inventory is minimized but size choices are increased
- A variety of prepackaged sizes are also available
- Custom cut pieces are available, allowing you to buy just what you need, please specify length when ordering, 10', 20' or 30' wide

Often imitated, NEVER duplicated!

Don't be fooled by copycats. EasyPro's Deluxe Pond and Garden Tents are the **STRONGEST, MOST DURABLE** pond tents on the market.

EasyPro® Deluxe Pond and Garden Tents

Stronger netting. Stronger poles. Stronger Stakes. Access Zipper.

- **Larger Sizes Available:** 8' x 10', 10' x 14' and 13' x 17'
- **Durability:** Full 12' wide band around the bottom with the tie down loops for extra strength and durability
- **Easy Pond Access:** The built-in zipper allows for easy access to feed your fish
- **Easy-to-Assemble:** Simple two person assembly can be completed and installed over pond in just a few minutes

VIDEO

Protects Ponds

Protects Gardens
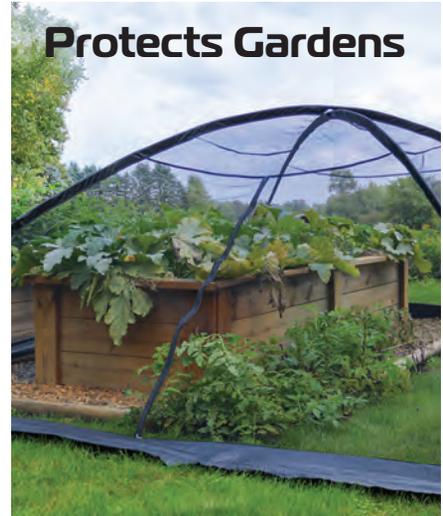

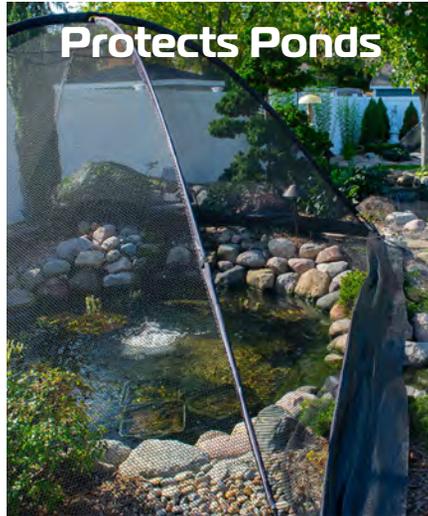

The reviews are in. EasyPro® is the customer's favorite!

EasyPro® Pond Tent Customer Review

"Great investment. We have now gone through three months of leaves falling over this pond net and it works like a charm. This is our third try at a pond net and we are so happy we finally found the EasyPro after dealing with the others that were less well made. It is perfect, sturdy, easy to put together with two people and we have absolutely no leaves in the pond."

Competitor's Pond Tent Customer Review

"The assembly was a pain with the poles popping apart and flopping all over. ...after a couple rainy and windy days it collapsed on one side and would (not) stay upright anymore, a couple days later the rest collapsed dropping the net into the water. ...nothing holds the poles in orientation... The stakes hold the corners, but the poles just swivel to be parallel to the ground without moving the stakes."

TENT STAKES

EasyPro® provides 12 durable, heavy anchor stakes for securing tent to the ground.

Competitor provides 8 thin metal stakes that can bend and not remain secure in the ground.

EasyPro®

Competitor

Easy Access Zipper!

NYLON MESH

EasyPro's nylon mesh is UV coated and secured to frame with full length sleeves, making it more durable. It's 3/8" mesh is designed to keep out more debris.

Competitor's nylon mesh is NOT UV coated leading to premature failure.

TENT POLES

EasyPro's aluminum/fiberglass poles are larger in diameter (11.2mm), stronger and sturdier.

Competitor's 9mm fiberglass only poles are thinner, weaker and have no "inner thread" making assembly difficult.

EasyPro®

Competitor

Intake Bay
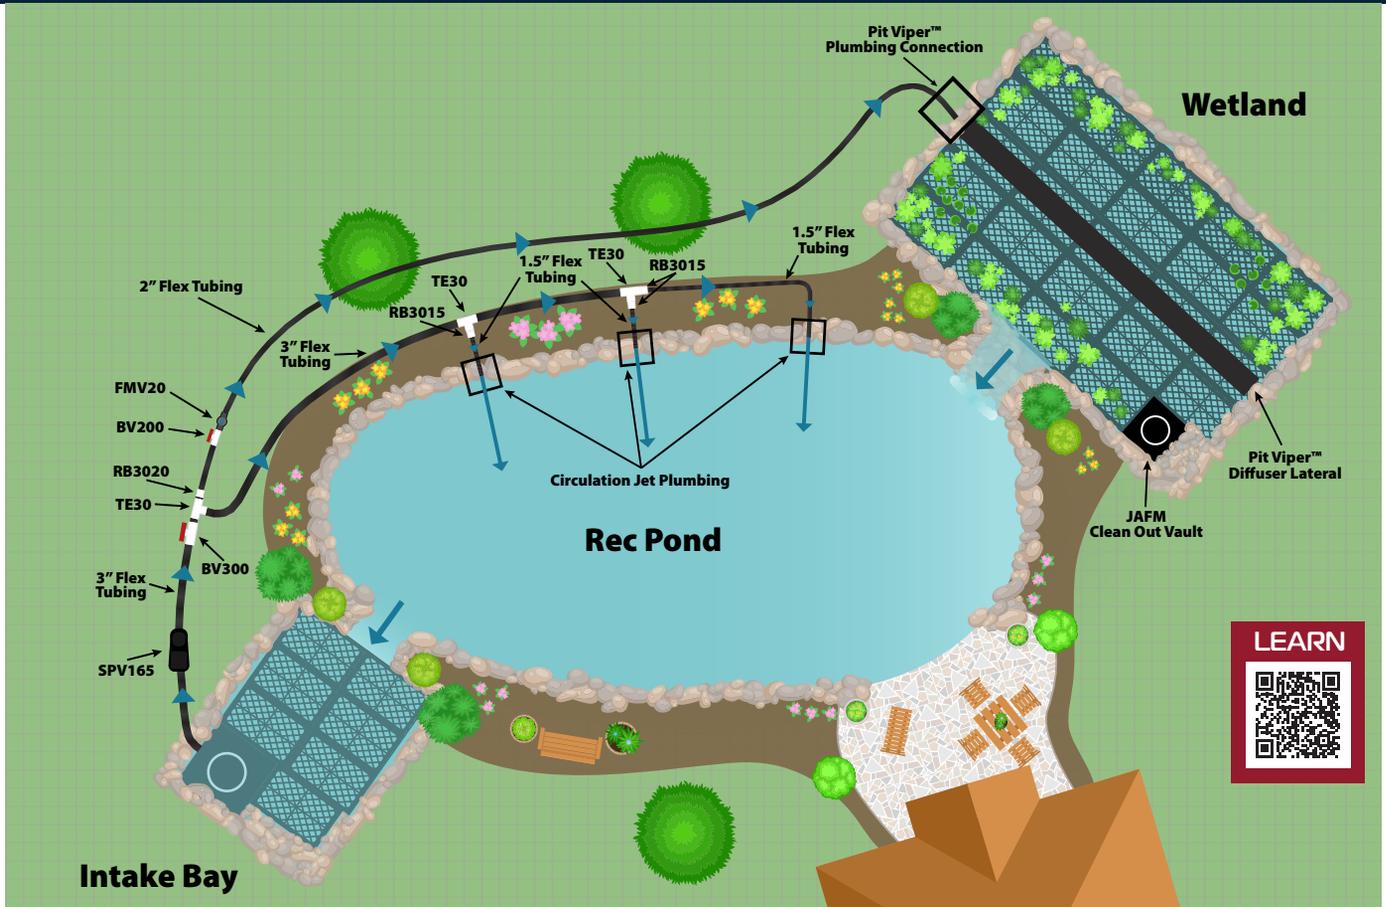

NEW! ## Pit Viper® 2.0 Diffuser Modules!
Shallower wetlands = less excavation and labor!

What makes the Pit Viper 2.0 system different?

- Flat bottom, trenchless installation!
- Entirely modular system – same size and shape as our half height PRO-Blox cubes
- Improved lateral flow
- Components clip together for more stable structures
- More economical and an improved design!

Why the Pit Viper 2.0 vs. the original Pit Viper?

- Simpler installation – No connectors or fittings required
- Half cube heights – Build a shallower wetland
- Same flow rates as the original Pit Viper - 600 gph per Pit Viper 2.0 module!

REC PONDS

A natural, environmentally friendly and aesthetically pleasing alternative to traditional swimming pools.

Reflections Water Gardens (IL)

Rec ponds use natural wetland filtration to filter and purify the water, creating a healthier, more sustainable ecosystem. Because rec ponds don't use harsh chemicals like chlorine or bromine, they're gentler on skin, eyes and hair. And there's no risk of chemical runoff into the surrounding environment.

Rec Pond Kits Now Include Pit Viper 2.0 Diffuser Modules for smaller wetlands!

EASYPRO Recreational Swim Pond Kits

Kits designed to make your life much easier! Everything is included to create an enjoyable swim pond and wetland filtration system. Kits include our new Pit Viper™ 2.0 Wetland Diffuser Modules for a smaller wetland system and swim-rated pumps.

Check out how the wetland filtration systems work on page 72.

Pump Selection Simplified

As described on pages 76-77, selecting a pump involves 1) determine the flow needed: multiply width (in feet) x 36 gpm = flow needed in gpm, and 2) determine the head pressure in feet (total dynamic head, see page 77)

To find a pump, go to the blue box on the right side of the chart. Find the feet of head column that is closest to your application (always round up to next column). Scroll down that column looking for a pump that provides the gpm you determined you needed in step 1. If multiple pumps fit your application you can compare cost to operate, outlet size, etc. to finalize your selection.

50' PIPE RUN

2.25'

6' ELEVATION

3000 Gallon Pond

SELECTING THE RIGHT PUMP

1 Determine your target flow rate
There are two ways to do this:

1) By waterfall size
36 gpm, or 2,160 gph, per foot of width
In our example above, a 2.25' wide waterfall requires a pump delivering 81 gpm, or 4,860 gph. This gives a
a semi-aggressive flow. Adjust up or down to your preference.

2) By pond size/filtration requirements
Most water garden and koi ponds need to be circulated once an hour.
This 3,000 gallon pond should have a 3,000 gph, or 50 gpm flow rate.
Pick the larger of the two numbers above - 81 gpm

2 Determine the pressure (head) required
Your operating pressure is a combination of friction loss in the pipe, and lift/elevation above water level.
In our example we have 6' of elevation plus 5' of friction loss in the pipe
See pg 77 for more details on friction loss and Total Dynamic Head (TDH)

3 Summarize your needs
In this example, 81 gpm @ 11' of Total Dynamic Head (TDH)

4 Pick your pump!
Using our pump selection chart on page 75, find a pump to meet your requirements.
For our 81 gpm @ 11' of TDH, the TH750 is a great choice

PRO TIPS When the exact match for flow rate and pressure are not available, select the next larger pump.

Improper pump application is the leading cause of pump failure. We're here to help! Call us and we'll guide you through selecing the best pump for your application.

When calling, you will be asked for:

1. The flow rate needed (volume)
2. Length of pipe run and diameter of pipe

3. Static head
4. Voltage and phase of power available

PRO TIP

PVC PIPE FRICTION LOSS
(in feet of head) per 100' of Pipe

Feet of head is typically measured in terms of vertical lift. However, the diameter and length of pipe can have a significant effect on the performance of the pump as well, especially if the pipe diameter is too small.

Total Dynamic Head is the feet of head (lift) added to the friction loss created by the pipe. To determine the Total Dynamic Head you would add the feet of head with the friction loss. The chart below lists the feet of head equivalent created by flow and pipe diameter.

FLOW		PIPE DIAMETER								
gpm	gph	1"	1.25"	1.5"	2"	3"	4"	6"	8"	10"
20	1,200	21.75	5.59	2.61	0.76	0.11

1250	75,000								2.20	0.73
1500	90,000								3.07	1.01

EXAMPLE

PIPE COMPARISON

Many people mistakenly think that there isn't much difference between (for example): 1½" and 2" pipe or between 3" and 4" pipe.

The chart on the right shows how many square inches of surface area is on the inside of the flexible PVC pipe.

Pipe Size (Diameter)	Square Inches of Surface Area
0.50"	0.20
0.75"	0.44
1"	0.79
1.25"	1.23
1.5"	1.77
2"	3.14
3"	7.07
4"	12.57
6"	28.27
8"	50.26

There is almost 80% more space between 1.5" and 2" pipe.

This shows that using the correct size pipe is important to the output of your pump.

QUESTIONS?
Give one of our technical advisors a call and we'll walk you through it!

FRICTION LOSS CALCULATION

This example shows 2" pipe being used with the waterfall at 6' high and 50' away from the pump. There is 80 gpm (4,800 gph) of water being pumped.

According to the chart above, 80 gpm in 100' of 2" pipe creates 9.94" of head. Since this example shows 50' of pipe being used, we would divide 9.94 by 2, which equals 4.97" of head from friction loss.

6' Vertical Lift
+
4.97' Friction Loss
=
10.97' Total Dynamic Head

50' PIPE RUN   6' ELEVATION

All-Time Best-Selling Pumps

TH Series™
Submersible Stainless Steel Pumps

**Energy efficient and long lasting!
Great for waterfalls and streams.**

The "TH Series" of pumps has proven to be a great choice for ponds, waterfalls, fountains and similar applications. Thousands of these pumps are in use throughout North America in a wide variety of continuous duty applications.

Compact design is ideal for use in skimmers. One of the industry's best selling pumps.

- Rugged motor — designed for long life, continuous duty operation; motor housing is corrosion-resistant stainless steel
- Low maintenance — pump casing is made from abrasion-resistant, fiber reinforced plastic for maximum life
- Vortex design prevents clogging
- Built-in overload and overheat motor protection
- 2" female threaded outlet
- 20' power cords
- Two year limited warranty (wearable parts exempt)

Optional bottom screen available!

TB8000   TB12000   TB14500
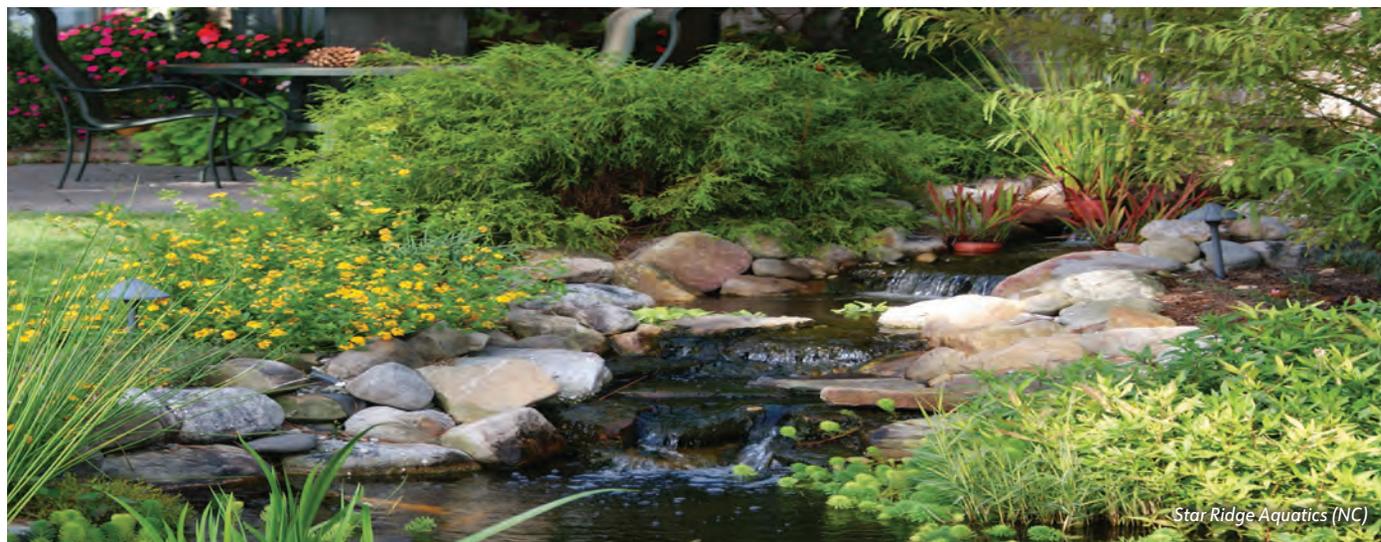

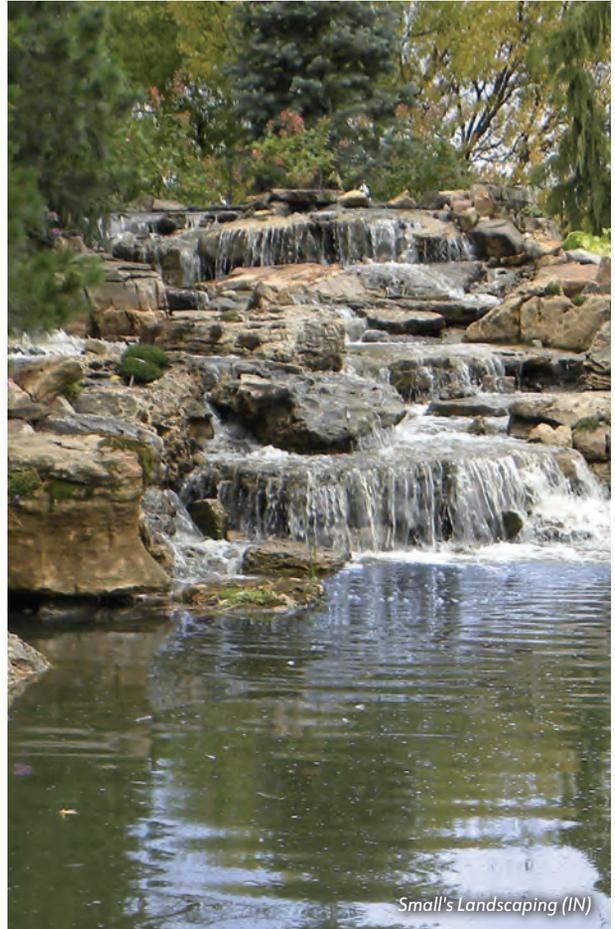

TB Series™ High Head
Submersible Stainless Steel Pumps

The best choice for water features above 20'

- 3" outlets with 20' power cords and thermal overload protection
- Top quality Japanese double mechanical seals – over 100,000 hour life expectancy
- 230 volt (1 hp available in 230v or 115v)
- Designed for use with higher head pressure
- Applications: A **minimum** of 20' head pressure required for TB12000 and TB14500, use ball valve to create back pressure if system has less than 20' head pressure
- Two year limited warranty (wearable parts exempt)

EasyPRO
Pond Products

EasyPro® Mag Drive Pumps stand out from the crowd in features, benefits and durability.

With sixteen models ranging from 200 gph to 9460 gph, EasyPro® offers a model for nearly every application. For low head applications, Mag Drive pumps are unbeatable and with few moving parts, their reliability is unsurpassed.

Pond & Water Feature Pumps

The industry standard for smaller water features

- Washable foam prefilter
- Free fountain nozzles with every pump. See chart below for details & scan QR code.
- Replacement parts sold on page 83
- Three year limited warranty (wearable parts exempt)

Eco-Clear Submersible Pond Pumps

Buy more and save!
Save 5% when you buy a case of 4

Our newest line of submersible mag drive pumps offers maximum power AND energy efficiency.

- Permanent magnet motor for high efficiency and continuous duty
- Epoxy sealed motor - no oil to leak out! Safe for fish.
- Ceramic impeller provides high wear resistance and long life — designed for passing debris up to $^3/_8$" diameter
- Adjustable direction outlet includes 1", 1¼" or 1½" step barb fitting
- Available as a kit with EasyPro® Eco-Clear Pressurized Filters. See page 41.
- **Variable flow model EPS4900VF** available with external flow control module
- 30' power cord
- Three year limited warranty (wearable parts exempt)

EASYPRO
Pond Products

High Volume Submersible Pumps

These heavy duty, cast iron pumps are an economical choice for waterfalls. While these pumps are not as long lasting as Munro and EasyPro® Pumps, the high flow and low cost make them a popular choice for large waterfalls. They are the largest 115v submersible pumps we offer.

- All pumps available in 115v or 230v
- 30' power cords
- 3" discharge
- One year limited warranty (wearable parts exempt)

MUNRO Extreme Waterfall Pumps

Industry leading performance, value & reliability

- Stainless steel pumps designed to run for years, internal water flow dissipates heat quickly allowing for longer life span
- High efficiency motors pump more water using less energy than most competitors
- 1/2 and 1 hp units are low head, high volume pumps — do not restrict piping or valve back these models
- 2 hp and larger are medium head pumps and can be valved as needed for desired flow
- 24' power cords on 2-5 hp, 30' power cords on 1/2 and 1 hp models
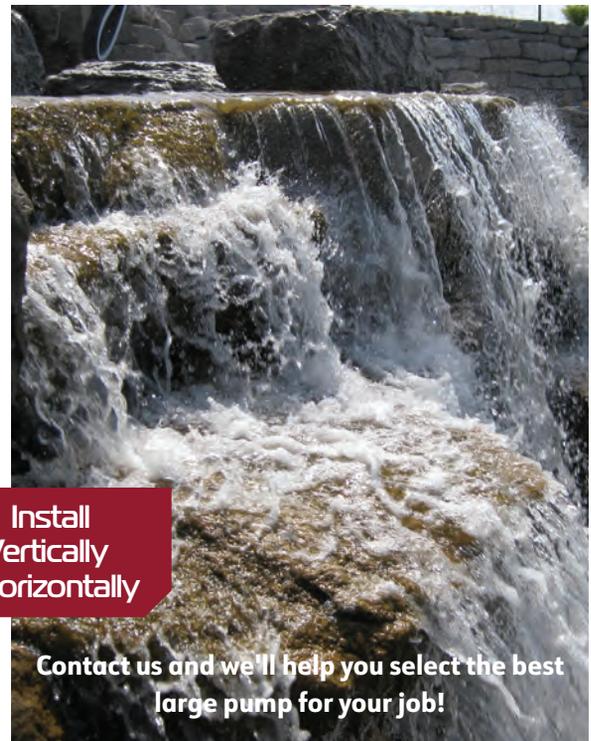

Install Vertically or Horizontally

Contact us and we'll help you select the best large pump for your job!

Inline Flow Meter

This inline flow meter allows for accurate and reliable flow rate measurement without sticking floats or paddle wheels.

- Great for filter systems and UVs, 95-98% accuracy
- Can be installed right next to tees or elbows in any position
- 2" model has integrated check valve
- 2" body is CPVC, 3" and 4" body are PVC
- Fits schedule 40 or 80 pipe
- Five year limited warranty

FMV20

Pump Pro-Tectors

Protect against plugging by creating a large surface area around the pump

- Designed to fit all brands of small pumps
- Has a polyester filter media pad inside of a nylon mesh bag
- Drawstring top with push button release keeps the top closed around the pump yet makes for easy pump removal
- **PP8** has an 8" diameter and 1" thick sidewalls allowing pumps up to 6" diameter
- **PP12** has a 12" diameter and has 2" thick sidewalls allowing pumps up to 8" diameter

PP8   *PP12*

Part #	Maximum gph Flow	Case Quantity	Stocking Code	Ship Weight	List Price
PP8	1250	6	423994	2 lbs.	$31.99
PP12	2550	4	635247	3 lbs.	$46.99

Three-Way Valve

The versatile valve splits the water flow so you can operate two features from a single pump.

- 1¼", 1½", 2" inlet step barb
- 1", 1¼", 1½" outlet step barb

Part #	Stocking Code	Ship Weight	List Price
ECM3V	725599	2 lbs.	$31.99

External pumps are a great choice when you don't

want any electricity in the water, need easy access for servicing, or have a setup with equipment located away from the main system. They also tend to offer a wider range of pressures and flow rates, longer lifespans, and in some cases, lower energy costs.

Centrifugal pumps are a budget-friendly option when you're working with flooded suction setups — meaning the pump sits below the water level. Just make sure to install a check valve on the end of the suction line to keep the pump primed.

Self-priming pumps can clear some air out of the suction line on their own, which makes them a better fit for more complex plumbing layouts. These pumps can be mounted above the water level, though using a check valve is still a good idea.

To find the best match for your system, check out the Pump Selection Chart on page 75, or browse pages 89–92 to explore all our available options.

PRO TIP
Operating an External Pump

Proper plumbing selection and set up is important when choosing to use an external pump. Below are some ways to set up an external pump with a skimmer. There are limits to how high a pump can be placed in a suction lift set up. Each pump is different, but these general layouts show how an external pump can be used. There are two basic set ups with an external pump: flooded suction or suction lift.

Flooded Suction

FLOODED SUCTION
UNION
GATE VALVE
PUMP
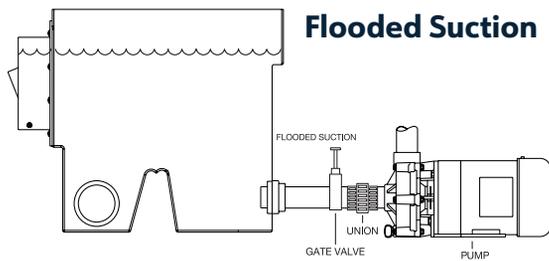

A *flooded suction* set up is where the pump is situated below the water level and the water flows by gravity to the pump.

UNION
GATE VALVE
PUMP
SWING CHECK VALVE
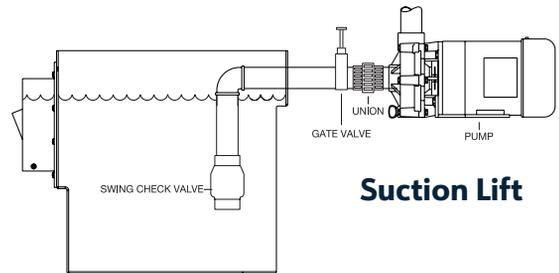

Suction Lift

A *suction lift* set up is where the pump is located above the water level. "Suction lift" is a technical term for this set up, it does not mean that the pump acts like a vacuum cleaner.

Improper Plumbing Setup

SWING CHECK VALVE
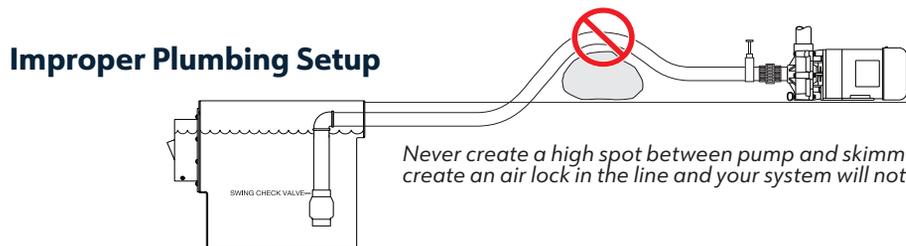

Never create a high spot between pump and skimmer/pond, it will create an air lock in the line and your system will not work correctly.

See easypro.com for more information on selecting the right pump

EasyPRO Pond Products

EasyPRO Medium Head External Pumps

If you are looking for great quality and an affordable price point, look no further!

- UL listed, 115v energy efficient motors with 6' power cords on all models
- Strainer basket with clear lid for easy inspection
- Safety rated for pool use
- GV100 and GV150 have horizontal/vertical discharge in one assembly
- 1½" fpt inlet/outlet with free unions on GV75S and GV100S
- 1½" slip PVC inlet/outlet with free unions on GV100 and GV150
- Two year limited warranty (wearable parts exempt)

All pumps are performance tested before leaving factory

SPECK pumps   Variable Speed Pumps

Self-priming pumps allow user to speed up or slow down motor for maximum energy savings

- Unique design allows motor to operate at various rpms
- Easy to use digital keypad allows for single programming
- No power cord - set up to be hard wired
- Safety rated for pool use
- Totally enclosed, fan cooled motors, no weather protection needed
- VSP165N - 1.65 hp, 230 volt single phase power input
- VSP270N - 2.7 hp, 230 volt single phase power input
- Two year warranty (wearable parts exempt)
- Free Unions Included!

External Pumps

EASYPRO **Pond Products**

EASYPRO **External Low Head Pumps**

Ideal for koi ponds, external filters and low head water falls, these reliable pumps are a great value!

Extra Quiet Operation!

- Continuous duty, weatherproof motors — can be used outdoors without additional protection from weather
- 8' power cord included
- Not self-priming — use in flooded suction applications or with check valve on suction line to maintain prime
- All sizes (except EX3600) have dual voltage motors, pumps are shipped 115v but can easily be field changed to 230v

EX6100

EXS902	90 cu. in.	2" mpt	5142493	5 lbs.	$189.99

Self-Priming External Pumps

EasyPRO EXP Series - The all-in-one!

An excellent blend of power, energy efficiency and durability. Designed with longevity in mind, these rugged units feature corrosion and abrasion resistant components, stainless steel shaft seal, integrated strainer basket and self-priming convenience. Designed for continuous operation

Long life, corrosion resistant, stainless steel shaft seal

- Dual voltage motors - voltage can easily be field changed. 8' 115v cords included on all models except for EXP9500HP, which has no cord and must be hard-wired.
- Approximate dimensions: 12.75" tall x 10.75" wide x 25.75-28.375" long
- 2" union fittings are included
- Very quiet motors
- Three year limited warranty (wearable parts exempt)

EXP5500

EXP Self-Priming, Low Head External Pumps

- Dual voltage motors with 8' power cord. Pumps are shipped 115v but can easily be field changed to 230v
- Very quiet operation. Motor is totally enclosed and fan cooled (TEFC) for durability.

EasyPRO Self Priming, External Pumps

Higher flow rates and higher head pressures. Ideal for medium flow, medium head applications where the safety of an external pump and the convenience of a self primer are desired.

- Self priming — will prime up to 5' above water level
- 3" inlet/outlet unions included
- Extra large strainer basket — reduces cleaning frequency
- Very quiet motors — open drip proof design does require protection from weather
- PCA75 is dual voltage and can be field changed to 230v — 1.5, 3 and 5 hp are 208-230 volt only
- Three year limited warranty (wearable parts exempt)

SPECK pumps

Swim-Rated Pumps from Speck Pumps

DPPP pool-rated. High efficiency, high pressure and high flow models.

SPHE05

1750 RPM

SPHE05 (.5 HP)
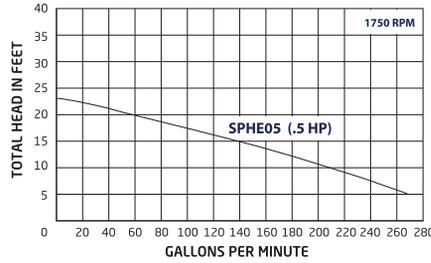

High Efficiency
- Flooded suction pump - max flow at low head
- Extremely quiet – low 1750 RPM dual voltage motor
- Dielectric shaft sleeve provides absolute separation between pool water & electric parts
- "1081" E-plus®/extreme-E™ energy-efficient motor for extra low energy consumption.
- Equipped with 4" female slip adapter on strainer tank and 4" male slip adapters on the discharge.
- Two year limited warranty (wearable parts exempt)

SPHP40 / SPHF50

3500 RPM

SPHP40 (4 HP)   SPHF50 (5 HP)
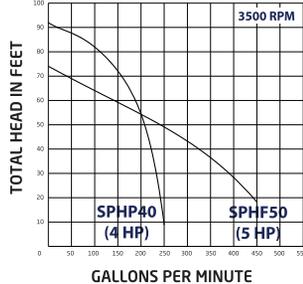

High Pressure and High Flow
- Large one-piece housing design with integrated strainer basket for faster pump priming
- Can be used for pool water with a salt concentration of up to 5000 ppm
- Equipped with 4" quick disconnect unions for easy installation and maintenance. Wrench for unions and lid is included.
- NSF-50 standard
- Two year limited warranty (wearable parts exempt)

EasyPRO Submersible Pump Screens

Use these handy intake screens with any submersible pump when pumping water from a lake, pond, river or tank. These sturdy built screens will protect pump from sticks, weeds, fish and other large debris.

- Available in two sizes — 12" diameter x 14" tall or 20" diameter x 18" tall
- Heavy duty ½" x 1" epoxy coated, galvanized, mesh screen
- Drawstring top allows for easy pump removal/inspection and will draw up tight to any pipe from 1½" to 4" in diameter
- Screens can be used vertically or horizontally

SPS20 shown with EasyPro TH150 Pump

Part #	Description	Stocking Code	Ship Weight	List Price
SPS12	Pump screen, 12" diameter x 14" tall	6112497	7 lbs.*	$149.99

EasyPRO High Volume Centrifugal Pump Intake Filters

For high volume pumping applications these heavy duty pump intake screens are the answer

For most high volume pumps, these filters are a better choice as they will allow fine particles through — so screens will not plug up as often yet will still keep out large objects such as sticks, fish and weeds.

- Epoxy coated heavy gauge galvanized wire, will not rust or corrode
- Mesh size is ½" x 1"
- Includes PVC swing check valve to keep pumps primed

EasyPRO Pond Products

Flex Tubing

All EasyPro® flexible PVC pipe is made in the USA from virgin materials ensuring the highest quality

- Available in 1/2" through 4" diameters
- All sizes will glue into schedule 40 PVC fittings — no special fittings or glue required
- Very flexible — temperature range is -10°F to 130°F
- Eliminates back pressure caused by sharp turns in standard PVC fittings and increases flow
- Increases efficiency of system – reduces fittings and installation time
- Rolls up to 2" can ship Small Parcel, 3" and larger rolls must ship via motor freight
- Dimensional shipping rates may apply

Kink Free Tubing

High quality kink free tubing is a popular choice for pond and water garden applications

- Smooth inside for maximum flow, ribbed outside for increased strength
- Will not crimp or collapse around curves
- Installs with less fittings than rigid tubing due to flexibility
- Safe for fish and plants
- Temperature range of -15°F to 190°F

Bulk Rolls for maximum savings

Inline Flow Meter

This inline flow meter allows for accurate and reliable flow rate measurement without sticking floats or paddle wheels.

- Great for filter systems and UVs, 95-98% accuracy
- Can be installed right next to tees or elbows in any position
- 2" model has integrated check valve
- 2" body is CPVC, 3" and 4" body are PVC
- Fits schedule 40 or 80 pipe
- Five year limited warranty

FMV20

PVC Check Valves

Union Style

- Same as SLIP x SLIP with the addition of a union on each end
- The union allows you to glue your line together and still get it apart
- Much more secure connection than rubber couplings in high pressure applications

UCV20

SLIP x SLIP Style

- These PVC swing check valves are recommended whenever maximum flow is needed
- Swing checks have full flow design for maximum gpm and are completely non-metallic ensuring years of use in water
- Ideal for use in fresh or salt water, are rated to 100 PSI, mount vertical or horizontal, and can be used with schedule 40 or 80 PVC pipe
- SLIP x SLIP only

Cabrio™ Lighting Series

**Vivid color for your water features or landscape!
Compact fixture emits powerful light, using only 3 watts.**

- Wide spectrum of color options
- Stainless steel housing with removable base
- Epoxy filled. Use in or out of water
- Sync with all your other Cabrio lights using a single remote control.
- 15' power cord with quick connect plugs
- Five year limited warranty

Cabrio™ Remote Control

This remote is required to operate all Cabrio lights on this page.

The Cabrio remote control works with radio frequency (RF) for up to a 60' range.

A single remote can operate multiple Cabrio fixtures in any combination and within range.

Extendible antenna allows for increased range of use.

A23 battery included

Size: 2" x 4" x ¾"

Color Changing Pond & Water Feature Lights

Maximize the impact of your water feature at night! Originally designed for use on floating fountains, these extra bright LED lights are also ideal for creating optimal nighttime displays on a wide variety of water features.

- Stainless steel 17 watt lights have both true warm white diodes and color changing diodes.
- Quick connect plugs on controller, cables and lights for easy assembly
- Stainless steel mounting brackets and hardware
- Weather resistant digital timer/controller with remote control. The remote control works up to 1000' and makes selecting colors and adjusting the brightness easy. RGBC controllers feature built-in memory protection in case of power interruption.
- Multiple controllers can be synced with one remote control.
- Red, green, blue, warm white, lavender, cyan and yellow-green solid colors plus several preprogrammed sequences with additional colors
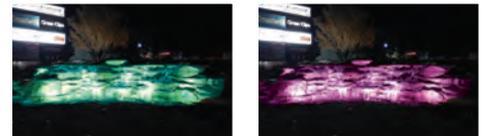

Tranquil Escapes (SC)

Custom build these lighting systems by selecting the number of lights needed and the corresponding controller. Then use a 15' or 30' power cable and splitters to complete the layout!

EasyPRO Pond Products

Cross Section of a Typical Formal Fountain

| Skid Mounted Pump/Filter System | Suction Pipe | Water Effect Discharge Pipe | Lighting Power Supply | Filter Discharge Pipe | Overflow Drain Line | Incoming Autofill Water Line |
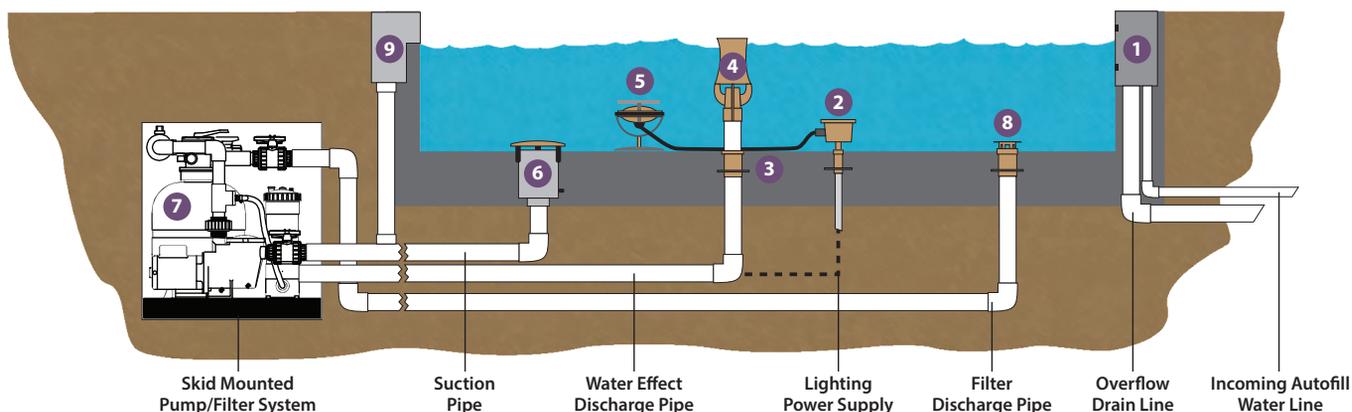

Formal fountains can also be built with a sump in the floor holding a submersible pump instead of a skid mounted external system

Truestone Distributors (OH)

WeekEnding, Inc. (MI)

Typical components used in a formal design. Depending on project, some or all may be used.

1 Fill/Overflow Wall Box

Add water for evaporation loss or drain excess rainwater with these flush mount wall boxes.

See page 126

2 Bronze Lighting Junction Box

Available for up to eight lines – combines all lighting cables into one supply box.

See page 131

3 Water Stop Flange

Prevents water loss along all PVC pipes penetrating through concrete walls/floor. Many sizes available.

See page 131

4 Spray Nozzles

Many styles and sizes to choose from.

See pages 128-130

5 Lighting

Create night time sizzle with underwater lighting.

See page 131

6 Floor Drains

Intake water to pump comes from these floor drains.

Special Order

7 Pump/Filter

A variety of pumps, filters and chlorinators are available as individual items or turn-key skid mounted systems as shown here.

See page 125

8 Filter return

Excess water from pump/filter is returned up through floor inlets.

Special Order

9 Wall Skimmer

Skims pool surface eliminating hand removal of debris.

See page 126

800-448-3873

Skid Mounted Cartridge Filtration Systems

Plug and Go!

These skid mount fountain filtration systems come fully plumbed and ready to work. Simply connect your incoming and outgoing water lines and installation is complete!

Small Base Kits come on a 16" x 22" base and include a pump and cartridge filter with all plumbing including a water bypass line around filter.

Medium Base Kits come on a 32" x 32" base and include a pump, cartridge filter and a chlorinator. Fully plumbed with Sch. 80 fittings and pipe including a bypass around the filter/chlorinator.

PCF90C

Cartridge Filters

Provides mechanical (not biological) filtration — ideal for formal fountains

- The injection molded tank construction provides dependable corrosion-free performance
- The filter is designed with a lock ring lid closer to make access for cleaning a snap
- Cartridge with 100% polyester media provides long cleaning cycles resulting in longer life
- Built-in air relief valve and pressure gauge
- Equipped with 1½" quick disconnect unions and large 1½" drain plug for easy debris removal

PCF90   *PCF120*

Part #	Description	Diameter x Height	Inlet/Outlet Size	Max gpm	Stocking Code	Ship Weight	List Price

PCF120C	Replacement cartridge element, 120 sq. ft.			–	4231997	4 lbs.	$289.99

FWS14X Sold separately

Concrete Wall Skimmers

Rugged design with large filter basket

- Pours into concrete wall along perimeter of pool — connects to external pump
- 2" fpt outlet to pump
- Cleanout lid can be secured with stainless screws and has adjustable height
- Throat extensions are available in 3 1/2" increments
- Can be used in tandem with floor drains

Part #	Description	Stocking Code	Ship Weight	List Price
FWS14	Wall skimmer, 14" wide	4239992	12 lbs.	$299.99
FWS14X	Throat extension, 3 1/2"	728796	5 lbs.	$35.99

Chlorinator

Easy to install

- This simple in-line chlorine feeder is designed to install in the return water line (after the filter)
- 1 1/2" fpt inlet/outlet (unions not included)
- Built-in flow control to regulate chlorine levels in water
- Nine pound capacity

Part #	Stocking Code	Ship Weight	List Price
CHL9	4134991	5 lbs.	$149.99

Eye Ball Returns

Create adequate flow and circulation in formal pools with these high quality returns. Available in brass or high-strength PVC.

- Water stop flanges embed in concrete wall — eye ball threads into flange after pool is built
- 1½" schedule 80 PVC connects to plumbing with PVC coupler. (sold separately)
- Eye balls are adjustable up to 15° in all directions.

Part #	Description	Stocking Code	Ship Weight	List Price
EBR15B	1½" Brass Eye Ball Return	4303747	3 lbs.	$404.99
EBR15PL	1½" PVC Eye Ball Return	8153742	2 lbs.	$204.99

Wall Mount Autofill/ Overflow Box

Protect your features from evaporation loss or overflow from excess rain water.

Includes mechanical autofill valve!

- 8" x 10" box buries flush in concrete sidewall
- 3/8" fill is used to add makeup water to feature. Connect to water supply line.
- Includes 3/8" female npt pipe threads
- 2" overflow drains off excess rain water. Connect to drain.
- Stainless steel cover plate
- Pre-installed bonding lugs

Part #	Stocking Code	Ship Weight	List Price
WMB810N	2352496	9 lbs.	$469.99

Arching Stream Fountain

Add a touch of elegance to any pond, pool or formal fountain with these arching jets of water

- Flow range of 800 gph to 1500 gph recommended, can be installed with most small pumps
- A 6' to 10' arch with heights of 5' to 6' is ideal, longer arches can be made when installing indoors where there is no wind
- For use in clean water applications, internal sponge filters remove fine particles that can disturb flow — periodic cleaning of sponges is necessary to maintain proper flow
- 1" barbed inlet
- Color changing LED light has 16' power cord/transformer and remote control
- Discounts available when purchasing multiple units, please call for more information

VIDEO

Riverside Casino (IA)
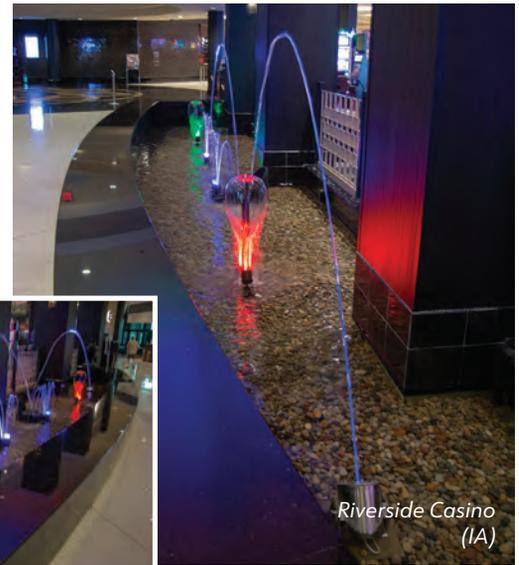

Kit includes pump, ball valve, fittings and 12' of tubing

LED light remote control lets you choose and lock on any color or have it rotate through the colors

Part #	Description	Stocking Code	Ship Weight	List Price

Heritage Development (IL)

Since every feature is custom designed, we ask you to contact us with your plan details and we will prepare a quote for you. Due to the complex nature and extra time required, a nominal fee may be required on some jobs to prepare a quote.

FCJN Series

- Swivel base
- Built in flow adjustment screw allows you to easily change spray pattern
- Available in 1/2" and 3/4"
- Female threaded inlet

AJN Series

- Swivel base
- Larger diameter orifice for better sprays in windy conditions
- Available in 1/4" and 1/2"
- Male threaded inlet

SJN Series

- Swivel base
- Longest nozzle gives best arch — ideal for long distance sprays
- Available in 1/2" to 11/2"
- Female threaded inlet

Smooth Jet Nozzles

Build custom spray rings

Nozzles can be installed vertically or at an angle. This feature has smooth jet nozzles surrounding frothy nozzles.

![EasyPRO Pond Products logo]

Bronze Frothy Nozzles

- Popular nozzle produces a thick, foaming geyser that creates an eye catching column of spray, often used in multiple nozzles, at different heights for a dramatic display
- Due to air being mixed with water at the nozzle, it is important that the water in the pool stays at a constant level
- Built-in swivel allows nozzles to tilt up to 15° any direction

Brilliant LED Fountain Ring Lights

These IP68 rated stainless steel lights are designed to slide over top of fountain stand pipes and illuminate formal water features, they can also be used in waterfalls and ponds.

Bright LED lights can be attached directly to fountain stand pipes!

- 15' power cords
- 12v power, use with EasyPro® transformers on page 107
- Adjustable - lights can be mounted at desired height on stand pipe and secured in place with stainless mounting screws (included)
- 2800-3000 K warm white LED
- Five year limited warranty
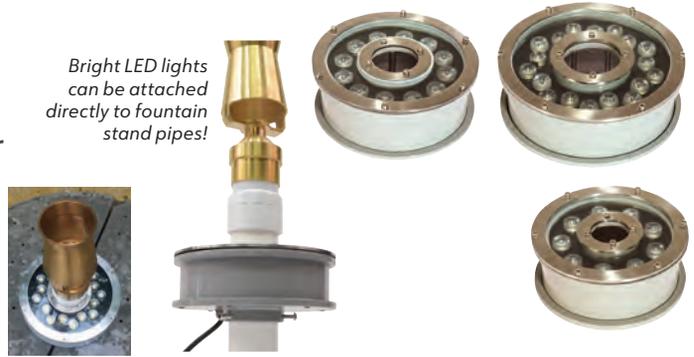

Part #	Description	Fits PVC Stand Pipe	Light Dimensions	Stocking Code	Ship Weight	List Price

LAKE & POND MANAGEMENT

More info and lake products in our Lake & Pond Management Catalog!

It's Official!

PRO+ MAXIMUM STRENGTH BLUE LAKE DYE IS THE MOST CONCENTRATED

Blue Dye Comparison
Concentrated Liquid Lake Dye

Relative Strength (%)

- EasyPro Part # ECPD: 100
- Competitor 1: 97.463
- Competitor 2: 93.337
- Competitor 3: 90.015
- Competitor 4: 43.69
- Competitor 5: 40.72
- Competitor 6: 33.371
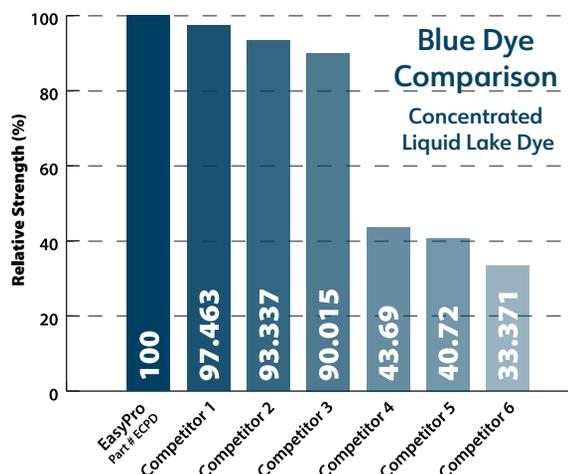

LAB CONCLUSION

Spectro scan testing demonstrated that EasyPro's Blue Lake Dye delivers the highest color strength, serving as the 100% performance benchmark.

- Competitors 1–3 are up to 10% weaker than EasyPro's Blue Lake Dye.
- Competitors 4–6 show drastic performance drops, with dye strength as low as 66% weaker.

This means you need less EasyPro dye to achieve the same or better results—saving you time, money, and effort.

Learn more and download the results here or visit easypro.com

PRO+ MAXIMUM STRENGTH LAKE & POND WATER TREATMENT

Concentrated Pond Dye — Liquid

Concentrated dyes will save you in shipping costs

- This is a nontoxic dye for use in ponds and lakes
- Waters can be used for swimming and irrigation once product is dispersed
- Compatible with most aquatic herbicides and algaecides
- Black dye creates a more reflective surface appearance
- Blue dye creates "Caribbean" blue water
- Serenity dye is a mix of blue and black

LIQUID DOSAGE RATE†
One quart treats one acre of water 4' deep (approx. one million gallons)

CASE 5% DISCOUNT

MAP

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price

Concentrated Pond Dye — Powder

Easy to apply water soluble packets (WSP)

- Dry powder dye is cheaper to ship than liquid
- Four - 4 ounce water soluble packets per pouch, simply toss into pond for easy application
- Safe for use with fish and aquatic life
- Three water soluble packets will treat one acre, 3'-4' deep
- Each WSP is double sealed in water soluble film

DOSAGE RATE†
Each four ounce water soluble packet treats 1/3 acre, 3'-4' deep

POUCH
4 WSPs

5X FORMULA

CLARIFY WATER
REDUCE MUCK
REMOVE EXCESS NUTRIENTS

LAB CONCLUSION

Microbial analysis confirmed – Lake & Pond-Vive™ delivers the highest total viable bacterial spore counts. Compared to other products, Lake & Pond-Vive™ also provides the greatest diversity in muck eating bacterial species.

While several useful products tested below 1 billion CFU/gram (some as low as 7.5 million), Lake & Pond Vive™ consistently delivers beneficial bacteria concentrations of **5 billion CFU/gram**, supporting faster and more effective organic muck breakdown in ponds and lakes.

To view the full report, including enzymatic analysis, scan the code or go to easypro.com

PRO+ MAXIMUM STRENGTH LAKE & POND WATER TREATMENT

Best Seller

EasyPro® Lake & Pond-Vive™

Natural revival for lakes and larger ponds. A blend of enzymes and beneficial bacteria, with a concentration level of FIVE BILLION colony-forming units per gram!

- Formulated to improve water quality and reduce muck
- Reduces muck buildup and eliminates pond odors
- Improves water clarity and reduces oxygen demand
- Eliminates excess nutrients
- Reduces ammonia, nitrite, nitrate and phosphate
- Cold weather bacteria strains, for results in temperatures as low as 38°F
- Four enzyme strains to break down waste faster
- Easy to use eight ounce water soluble packets or loose powder

PRO TIP

Lake & Pond-Vive™ is supercharged when used with aeration!

PRO+ MAXIMUM STRENGTH LAKE & POND WATER TREATMENT

Lake & Pond-Vive™ L

Liquid Lake & Pond Beneficial Bacteria

- Similar to Pond-Vive™ powder
- Ideal for treating golf course ponds, farm ponds, municipal ponds
- Works to remove ammonia, nitrates, phosphates and sludge
- Two gallons will treat 1/4 acre pond for 10-16 weeks
- Also available in 55 gallon drums and 250 gallon totes

DOSAGE RATES†

Initial Dose: One gallon per surface acre every week for four weeks, then maintenance dose.

Maintenance Dose: One gallon per surface acre every two weeks

Problem Ponds: One gallon per surface acre every week until desired results, then maintenance dose.

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
PB128	Pond-Vive L, one gallon bottle	4	434998	10 lbs.	$49.99

PRO HIGH STRENGTH LAKE & POND WATER TREATMENT

Muck & Sludge Remover Pellets

Great for spot treating around docks, beaches or partially treating large ponds

Sludge Remover bacteria is designed specifically to remove organic sludge from the bottom of lakes and ponds. Sludge is the result of fish waste, dead algae or plant material, uneaten fish food, leaves and other debris. The pellets, when introduced to the water, sink, dissolve and begin to remove bottom organic sludge — often several inches per year.

Simply toss pellets or blocks in the water for easy application!

- Diminishes bottom sludge buildup
- Removes pond odors caused by stagnant water and decaying material
- Sinking pellets for precise and effective placement when spot treating
- Enhances water clarity and reduces murky water caused by organic wastes
- Helps lower oxygen demand in the pond
- Reduces problem causing nitrate and phosphates
- Fish, family and animal safe

DOSAGE RATES†

Spot Treatment
One ounce of pellets covers approx. 200 - 250 square feet of shoreline or beach area — apply every two weeks

Full Pond Treatment
Two 8 ounce scoops per 1/4 acre every two weeks

Available in several sizes from 5 pound pails for retail to 50 pound boxes

3 Gram Pellets

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price

EasyPRo Pond Products

Super Concentrated Flocculant
Water Clarifier

Helps clear murky, turbid water by attracting suspended particles together, settling them to the bottom

- Works great when used with Pond-Vive, the clarifier settles the organic particles to the bottom where they are consumed by the Pond-Vive
- One gallon treats 250,000 gallons of pond water, ponds with high levels of suspended solids can be treated at double dosage or a second application
- For best results mix recommended amount with pond water and spray evenly over pond surface

PRO TIP For even better results!

Use Flocculant with Lake & Pond-Vive™.

The Flocculant settles particles to the bottom and the Lake & Pond-Vive™ helps eliminates them.

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
WC128	Water Clarifier, 1 gallon	4	283991	10 lbs.	$119.99

EasyPro Phosphate Binder

A critical step in effective pond management & maintenance

This all natural powder formulation provides a non-chemical alternative to using aluminum sulphate (ALUM), to bind problem causing phosphates in pond water. It will also buffer pH, provide approximately 70 beneficial trace minerals, provide minor flocculation (settling) of mud and clay particles and aid in reducing ammonia.

- Improve clarity
- Reduce phosphates
- Stimulate biological activity
- Works great with bacteria

DOSAGE RATE†

3-5 pounds per acre-foot of water to lower phosphate levels.

NEW! # Phoslock®

Phosphorus Binding Technology

- Captures dissolved phosphorus in the water column and forms a reactive "cap" on sediments, limiting future release from internal loading. Preventively, this supports sustained reductions in cyanobacteria and improved clarity rather than just short-term knockdown.
- Permanent, stable binding: Remains stable across wide (4-12) pH ranges and under anoxic conditions
- Versatile, field-proven use in lakes, reservoirs, wetlands, canals, and drinking water sources worldwide, including sensitive conservation areas, with documented long-term improvements in water quality.
- Does not affect pH, DO, or other water characteristics, making it ecologically safe for most sensitive species.

DOSAGE RATE†

110 pounds to 550 pounds per surface acre based on total phosphorus in water column

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
PHOL55	Phoslock® 55 lb.	–	3159997	57 lbs.	$199.99

EasyPRO
Pond Products

The amount of surface area an aeration system will effectively cover is greatly dependent on two factors – depth and shape.

Depth

The diagram to the right shows how much surface area is effectively aerated per air diffuser at various depths:
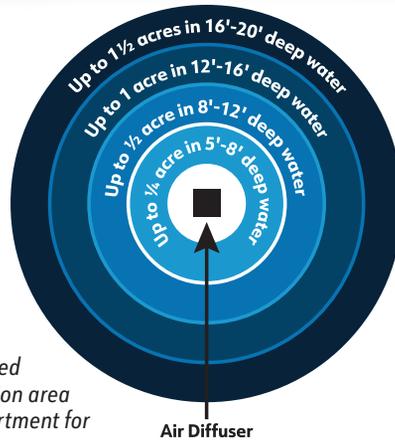

Example

Our PA34 Aeration System would aerate only ¼ of an acre if operated in 5' deep water, while aerating up to 1½ acres if operating in 16' - 20' of water.

Ponds that are irregular or odd shaped will also reduce the size of the aeration area – call our technical assistance department for additional help.

Up to 1½ acres in 16'-20' deep water
Up to 1 acre in 12'-16' deep water
Up to ½ acre in 8'-12' deep water
Up to ¼ acre in 5'-8' deep water

Air Diffuser

Shape

Pond shape affects the amount of diffusers needed. Irregular shaped ponds require multiple diffusers to adequately aerate entire water column.

Air Compressor

Air Compressor

Air Compressor

Air Compressor
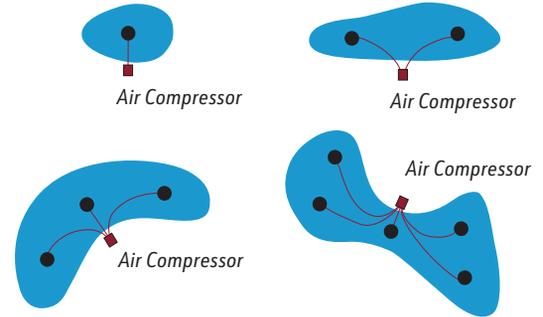

PRO TIP The deeper an air diffuser is located, the more "boiling action" it will create and a larger area will be aerated.

PRO TIP A unique shaped pond or lake will require more diffusers to cover the same surface area.

Rocking Piston Systems

Base Part #	Horse Power	Diffusers Included	5' - 8' DEEP	8' - 12' DEEP	12' - 16' DEEP
PA34	1/4 hp	1 or 2	up to ¼ acre	up to ½ acre	up to 1 acre
PA65	1/2 hp	2	up to ½ acre	up to 1 acre	up to 2 acres
PA66	1/2 hp	3	up to ¾ acre	up to 1½ acres	up to 3 acres
PA86	3/4 hp	4	up to 1 acre	up to 2 acres	up to 4 acres

Aeration Kits for Shallow Ponds

For ponds 7' deep or less these linear powered aeration systems are a great choice

- Extremely energy efficient
- Very quiet operation
- Long lasting, oil free design
- Weather resistant enclosures - can be used outdoors, for maximum longevity use additional protection from elements
- Now with self weighted diffusers for easier installation
- Three year limited warranty on compressors (wearable parts exempt)
- Five year limited warranty on tubing/diffusers

Choose from either single or double diffuser system. Single diffuser is ideal for round or regular shaped ponds. Use the dual diffuser system for long and narrow or irregular shaped ponds. Both kits include QuickSink tubing for easy installation.

Wind Driven Aerators

Let Mother Nature aerate your pond

Windmill aerators can save $30-$50 per month in electric costs, paying for themselves in a few short years. Ideal for aerating remote ponds with no electricity nearby.

- Stable, four leg design
- Long-lasting, reinforced neoprene diaphragm
- 6' diameter head with 12 blades operates in wind as low as five mph
- Produces 2.4-5 cfm (depending on air speed) for ponds up to 40' deep
- Over speed protection — tail section will turn head in high winds preventing over spinning
- Includes 48" long anchor stakes
- Includes hinge set
- Can effectively aerate ponds up to two acres depending on shape and depth
- Windmills can sit up to 1000' away from pond's edge — use poly tubing sold in our Lake & Pond Management catalog
- Five year limited warranty (wearable parts exempt)
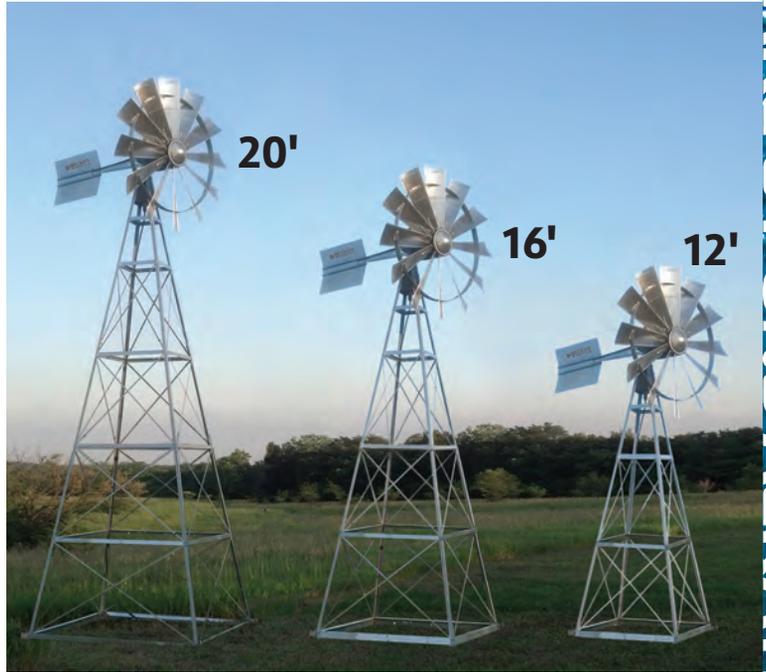

Part #	Description	Overall Height	Base Stance	Stocking Code	Ship Weight	List Price

Windmill Head Only

Already have a windmill tower or want to build your own tower?

- Available in a kit that includes tubing and diffuser(s), or as head only.
- Long-lasting, reinforced neoprene diaphragm
- 6' diameter head with 12 blades operates in wind as low as five miles per hour
- Produces 2.4-5 cfm (depending on air speed) for ponds up to 40' deep
- Over speed protection — tail section will turn head in high winds preventing over spinning if installed with pivot tube and able to rotate
- Can effectively aerate ponds up to two acres depending on shape and depth
- Windmills can sit up to 1000' away from pond's edge — use poly tubing sold in our Lake & Pond Management catalog
- Five year limited warranty (wearable parts exempt)

Windmill Head Kit Includes

- Functional head
- QS2 Diffuser
- Fittings
- 50' poly tubing
- 100' of ½" QuickSink tubing

EASYPRO
Pond Products

Complete Fish Systems

Ideal for classrooms, aquaponics, hydroponics, retail fish sales and more!

Excellent filtration is the key to any fish system, which is why we use EasyPro® Pressurized Bead Filters for the best in mechanical and biological filtration.

RCS2BL

Best Seller

RCS3N

The Fish System 1

This single tank set up requires less than 6' x 8' of space. Commonly used in retail stores and pond shops, but can also be found in many aquaculture classrooms.

System Includes:

- One PT6530 300 gallon fish tank - 65" diameter x 30" deep with pre-drilled drain holes for easy installation
- One EX3600 EasyPro® 3600 gph external pump. This whisper quiet, low-RPM pump is also energy efficient at only 1.4 amps
- One PBF1800 EasyPro® Bead Filter rated for up to 60 pounds of fish. Add the optional backflush blower to make your routine cleaning faster and use less water.
- Includes all necessary fittings, valves, unions, pipe, etc.

System 1

Part #	Stocking Code	List Price
RCS2N	42057066	$2,690.69

System 1 with Backflush Blower

Part #	Stocking Code	List Price
RCS2BL	32391458	$3,108.69

The Fish System 2

Dual 300 gallon tanks allow you to keep different species or sizes of fish in the same system. A best selling system due to its increased capacity with minimal additional cost to a single tank setup.

System Includes:

- Two PT6530 300 gallon fish tanks - each is 65" diameter x 30" deep with pre-drilled drain holes for easy installation
- One EX4500 EasyPro® 4500 gph external pump. This whisper quiet, low-RPM pump is also energy efficient at only 2.7 amps
- One PBF3600 EasyPro® Bead Filter rated for up to 150 lbs. of fish. Add the optional backflush blower to make your routine cleaning faster and use less water.
- Includes all necessary fittings, valves, unions, pipe, etc.

System 2

Part #	Stocking Code	List Price
RCS3N	73209126	$4,184.19

System 2 with Backflush Blower

Part #	Stocking Code	List Price
RCS3BL	13543517	$4,602.19

Round, Flat Bottom Tanks

We've sold these tanks all over the United States and in Canada for a wide variety of applications including aquaculture production, koi display tanks, filtration tanks, holding tanks, etc. Tanks are nestable for reduced shipping cost. Does not contain bottom drain - use bulkhead fittings found in our Pond & Water Feature catalog.

Part #	Diameter	Depth	Capacity	Stocking Code	List Price
PT6530	65"	30"	300 gallon	5751999	$939.99

Where to Buy

EasyPro Pond Products are available across the U.S. and Canada through our growing network of distributors and dealers. Purchasing EasyPro items through these local suppliers has become the easiest and most cost effective choice for landscape professionals and homeowners. Use the "Where to Buy" section on our website or contact us at 800-448-3873 and we can help you find an EasyPro supplier near you.

Customer Service

Technical Assistance We believe it's best to invest time upfront helping you select the right products, rather than addressing the problems and added expense that can result from incorrect choices later. Our team is happy to provide free design assistance for ponds, waterfalls, aeration, filtration, and more. When possible, please include a diagram of your layout so we have a clear visual reference. Diagrams can be faxed to 231-834-5537 or emailed to quotes@easypro.com.

Large Orders If you require large quantities of an item or multiple items, please provide a list of the products and quantities needed so we can prepare a price quote.

Ordering

For your convenience there is a PDF order form in your resource portal. This order form may be filled out electronically and submitted by email or fax.

Place orders in any of the following ways:

Telephone Orders by phone can be placed at 231-834-7720 or toll free at 800-448-3873; Monday to Friday; 8am to 5pm Eastern time.

Fax Orders by fax can be sent to 231-834-5537

Email Send orders to orders@easypro.com. This email is for orders only. For special project quote requests (ponds, Just-A-Falls, fountains, aeration, etc.) email to quotes@easypro.com. For any other questions, quotes or services, please call us at 800-448-3873.

Shipping Information

Items Less Than 150 Pounds typically ship UPS or Fed-Ex. We strive to provide economical, on time and secure delivery of product. Occassionally additional carrier fees are charged for bulky items (filter material, pond kits, etc.), unpackaged goods (i.e. flex pipe, kink-free tubing, etc.), hazardous goods and other special considerations.

Large and/or heavy items are shipped motor freight Last year, we shipped more than 3 million pounds of freight over truck lines. Because of our large volume, we're able to negotiate higher discounts with carriers, making our rates very competitive. Motor freight companies charge a residential fee when delivering to a residence.

Damaged Shipments: Please inspect your shipment before signing for it! Once you sign for your shipment, the carrier will not be liable for shortages or damage. You can refuse a damaged shipment or accept it with clear notification of damage on the bill of lading. Please call us immediately if you refuse a damaged order so we can accept it back from the carrier and reship your order.

Returns

All returns must have an RA# (Return Authorization Number). This lets us know what is coming back and what to do with it (i.e. credit your account, replace product, etc.). A 10% restock fee will apply to returns unless it is our shipment error. Packages sent to us without an RA# written on them will be refused. All products, including warranty items, must be returned to us shipping prepaid. We will pay the shipping charges on warranty items back to you, but not from you to us. Product over 90 days old is not returnable for credit. Special orders, cut liner and used items are not returnable.

Obtain a Return Authorization ("RA") number by calling EasyPro at 800-448-3873 or via email at warranty@easypro.com.

Payments

Credit Cards We accept VISA, MasterCard, Discover and American Express.

Money Orders/Checks Money orders or business checks are accepted as payment.

Net 30 Account Companies wishing to set up an account with us need to fill out our credit application. Schools, institutions and governmental agencies are pre-approved with use of a purchase order number. Interest will accrue on all invoices over 30 days. No orders will be shipped to customers with invoices over 60 days old until account is brought current.

Hours

Business Hours Monday through Friday, 8:00 a.m. to 5:00 p.m. EST
Sales, marketing, shipping and office are closed Saturdays and Sundays.

We will be closed for the following 2026 holidays:

Good Friday — Friday, April 3
Memorial Day — Saturday, May 23 and Monday, May 25
Independence Day (US) — Friday, July 3 and Saturday, July 4
Labor Day — Saturday, September 5 and Monday, September 7

Thanksgiving (US) - Thursday, November 26 and Friday, November 27
Christmas - Thursday, December 24 through Friday, January 1

Warranty

EasyPro honors all manufacturers' warranties. Each manufacturer has their own warranty procedure. Some manufacturers allow us to determine warranty for them, while others handle their own warranties. Submersible pumps that have been taken apart, run out of water, have been altered or have cuts to the power cord will not be covered by warranty. Also, any product not used for its intended purpose, altered, damaged, improperly maintained or neglected will not be covered. Shipping costs to us (or to the manufacturer) are not covered by warranty, please insure package when shipping back to us. If product is covered by warranty we will pay shipping costs to ship new/repaired item back to you. Product returned to us for warranty that is deemed in working condition will be shipped back to you at your expense. Be sure your electrical supply is proper before returning pumps to us — each year we get numerous returns that are in good working order only to find the problem was in the electrical supply! A bench fee of $25.00 will be charged for each pump returned to us that is not broken. Each year we test hundreds of pumps, many of which are fine. This fee covers time and materials used in testing pumps that are in good working order.

Continuous improvement is our goal, therefore products may change from these shown. All prices are subject to change without notice. We make every effort to maintain printed prices however, due to circumstances out of our control, they may change.
